

STEPHENSON AWAITS NEXT MOVE IN CASE

Prisoner in "Federal Row" in Marion County Jail. He Jokes With Other Inmates

SUBMITS TO ARREST TODAY

Eph Inman Expected to Start Habeas Corpus Proceedings to Obtain Release on Bail

HENCHMEN ALSO IN JAIL

Marion County Sheriff Prepared to Resist Efforts of Defense in Marion Case

(By United Press)

Indianapolis, Ind., April 20—Laughing and joking with other prisoners, D. C. Stephenson, at one time "old man" of the Ku Klux Klan of Indiana, paced the "bull pen" in the Marion county jail this afternoon awaiting the next move of his attorney on the murder charge against him for the death of Miss Madge Oberholzer.

Earl Klenck, a former deputy sheriff, and Earl Gentry, under indictment with Stephenson on the murder charge, were also held without bond in the jail.

Within a few hours Eph Inman, attorney for the trio, is expected to launch habeas corpus proceedings to secure their release on bond.

Stephenson joked with the other prisoners in the "bull pen," men accused of bootlegging, white slavery, murder and other crimes, about his week-end fishing trip while authorities hunted for him to arrest him.

He ate heartily of the jail ration of fried liver, gravy and potatoes at noon.

Attorney James Curtis, who represented Sheriff Hawkins in the habeas corpus proceedings, conferred with the sheriff this afternoon. Curtis said the habeas corpus papers had not been filed but that he was ready for the move if it comes.

Any motion for a writ of habeas corpus is expected to attack the evidence on which the murder indictment was returned. In a motion to dismiss the early indictments charging Stephenson and his aides with kidnapping Miss Oberholzer, Inman contended the evidence was incompetent.

A motion for a writ of habeas corpus for the release of the three men on bond is expected to be the next move in the case.

In the event of an adverse ruling, it is said an appeal will be taken to the state supreme court.

Inman conferred with Stephenson for a short time while the latter was awaiting the arrival of the sheriff. It was understood the legal move in the first for Stephenson's freedom were under discussion.

The former Klan dragon said he left Indianapolis shortly before noon Saturday for a fishing trip in the southern part of the state.

If he had known the grand jury was going to return the new indictments against him, he would not have left the city, Stephenson said.

The three men, who had been mysteriously missing from Indianapolis since their indictment Saturday, returned to the city and went to the office of Eph Inman, their attorney.

A deputy sheriff, on guard outside the building, called Sheriff Hawkins and a moment later Inman phoned Hawkins to notify him that the three men were ready to surrender.

Hawkins, accompanied by a deputy, went immediately to Inman's office and made the arrests.

Stephenson and his two henchmen were taken to the county jail and placed in "federal row" where federal prisoners and county prisoners held on serious charges are kept.

MRS. JACOB SHAFFER IS DEAD

Born in Ireland and Came to This Country When 11 Years Old

Mrs. Kate Shafer, wife of Jacob Shafer, living on the Applegate farm, southeast of Rushville, died Sunday night about 9:30 o'clock, death being caused from an illness with dropsy and heart trouble. Mrs. Shafer was born in Ireland and came to this country when eleven years of age. Her maiden name was Mullin.

She had been a resident of that community for the past ten years. She was 60 years of age and is survived only by the husband.

Funeral services will be held at the late residence Tuesday morning at ten o'clock, and burial will be made in East Hill cemetery.

RUSHVILLE TAKES TWO SECONDS IN DISTRICT

Team of Three Members Wins Place in Bookkeeping Contest—Russell Taylor Takes a First

TEAM 2ND IN TYPEWRITING

The Rushville high school commercial team entrants in the district contest held Saturday at Columbus, fared fairly well and took two second place positions, and individual honors were also won by a local student.

Three pupils comprised a team, and in the bookkeeping division, Columbus was first, Rushville second and Shelbyville third, with three other schools being represented in that division.

Russell Taylor of the local school, a member of the team took individual honors in the bookkeeping division, and was awarded a ribbon.

In the amateur typewriting division, Rushville also took second place and made a good record in this branch of the contest.

The signal honors for the state competition were divided between Columbus and Shelbyville, who won first places in the various events.

THREE COMMENCEMENTS SCHEDULED FOR THE WEEK

Closing Exercises at Moscow Tonight, Arlington Tuesday Night and New Salem Wednesday

18 ARE GRADUATED IN UNION

Three high school commencements are scheduled for the first of this week, with Moscow holding their exercises tonight, Arlington Tuesday and New Salem on Wednesday night.

The Rev. J. S. E. McMichael of Cornersville will deliver the address at Moscow tonight, and the program will be given at the church. Dr. Noble Sherwood, state school superintendent, will be the speaker for the Arlington commencement tomorrow night, and on Wednesday the Rev. Mr. McMichael will be at New Salem.

The first of the eighth year graduations was held Saturday night at the church in Glenwood, when 18 pupils of Union township were given diplomas. The schools of Ging and Glenwood were equally represented, and the Rev. Gibson Wilson of this city delivered the address.

PETITION OF SIX IS DENIED

Supreme Court Refuses to Review Gary Liquor Cases

(By United Press)

Washington, April 20—The Supreme court today denied a petition of six of the fifty-five men convicted in the Gary liquor conspiracy case for a review of their conviction.

The six included Roswell O. Johnson, former mayor of Gary; Lewis E. Barnes, former president of the board of public works, and Dwight M. Kinder, former prosecuting attorney of Lake county.

IT'S A LONG NIGHT THAT HAS NO DAWN

TWO HUSBANDS FILE SUITS FOR DIVORCES

Harry B. Levi of Rushville and Thomas Moore of Union Township Charge Abandonment

LATTER'S WIFE GONE 3 YEARS

Two husbands are seeking divorces from their wives in complaints filed in the circuit court, and in each case abandonment is charged against the wives as the foremost reason for their separation.

Harry B. Levi, 918 West Third street, is plaintiff in one action against Inez Levi, charging that they were married May 26, 1923, and separated April 16 of this year when she is alleged to have left home and gone to Shelbyville to live. During their married life, the complaint asserts that she failed to provide meals, frequently left home during the day and night time, and remained away from home, and finally on the day of the separation she is alleged to have taken her belongings and left for Shelbyville.

In the other complaint, Thomas Moore, a farmer of Union township charges his wife with having left him, and has failed to live with him since May 1922. They were married in 1897, according to the complaint and aside from the fact that she has been missing from his home for three years, he has no other plea for a divorce.

LUCINDA A. FLEENER DIES

Former Rush County Woman Expires in Hancock County Sunday

Lucinda A. Fleener, age 72, widow of the late W. H. Fleener, formerly of this county, died at her home in Hancock county early Sunday morning, death being caused from pneumonia. She was a daughter of the late Jacob Murul of this county.

Surviving her are two daughters and also a sister Mrs. Amanda Wilhelm of Franklin county. Mrs. J. E. Miller, south of Rushville is a niece. Funeral services will be held at the Shiloh church in Hancock county Tuesday afternoon at two o'clock.

NO SERVICES SUNDAY

There were no services at the First Baptist church Sunday on account of the illness of the pastor, the Rev. R. W. Sage. Mr. Sage is suffering with tonsillitis and will probably will be confined to his home for a week.

FINED, SENTENCED; AND THEN RELEASED

George Lucid, Stranger Here, Owes Freedom to Unknown Woman Who Makes Successful Plea to Mayor

FOUND WITH BOOZE IN CAR

Sentence of 30 Days and Fine of \$100 Imposed and Commitment Papers Ready

A smooth talking woman with a wonderful appeal for sympathy worked on the heart strings of Mayor Walter R. Thomas this morning in police court, when a man giving his name as George Lucid of Indianapolis, was permitted to go on a fine of \$1 and cost after pleading guilty to liquor law violations.

Lucid, together with two other men supposed to be from Indianapolis, were arrested Sunday night in front of a local restaurant by Patrolmen Smith and Everman. Lucid had a bottle of liquor in his pocket and there was also some in the machine. The trio was placed in jail and arraigned this morning.

The other two were only detained as witnesses, as they were not intoxicated. Prosecutor Ketchum filed two charges against Lucid, one for intoxication, and the other for transportation of liquor. After questioning, he admitted his guilt to both charges and was given the minimum fine of \$100 and costs and 30 days in jail on the transportation charge.

Three women who had come here from Indianapolis were in court, and one of them asked permission to speak a few words, and she said the man was in destitute circumstances, with a wife and five small children needing his support at home. Prosecutor Ketchum in the meantime prepared the commitment papers for the sentence, but the sympathy plea worked, and he was fined \$1 and costs for being drunk. The woman who had done the talking went down deep into her stockings and paid the fine.

Lucid is said to reside in the 900 block in Buchanan street, Indianapolis. Some are of the opinion that the men and women were probably rum runners, and the story was used to let them off on easy terms. The woman who paid the fine, did so promptly, apparently being prepared financially for any emergency that might arise. The woman's name was not given in court and her relationship to the case or her interest in it. (Continued on Page Eight)

WOMAN MURDERESS IS SOUGHT IN INDIANAPOLIS

Shoots and Fatally Wounds Harry Keeley, 43, Who Resists Attempts to Rob Him

20 YEARS OLD, WELL DRESSED

(By United Press)

Indianapolis, Ind., April 20—With several tangible clues to follow, the police homicide squad combed the underworld districts of Indianapolis today for the woman murderess of Harry Keeley, 43.

The woman shot Keeley when he resisted her attempts to hold him up. She was described as about 20 years old and fashionably dressed. The girl attempted to hold up Keeley last night and shot him twice through the abdomen.

Grabbing her tight skirt up about her knees, she ran down the street and disappeared in the darkness before persons attracted by the shots could take up the pursuit.

Keeley was taken to the city hospital in a serious condition and died today.

SUCCUMBS TO RARE AILMENT

Howard Arbuckle, 17, Dies of Hodgson's Disease in Circleville

Howard Arbuckle, 17 years old son of Mr. and Mrs. Charles E. Arbuckle, living east of Circleville on the road to East Hill cemetery, died at the family home Saturday afternoon at 5:40 o'clock, death resulting from Hodgson's disease. The ailment is an incurable disease that affects the glands in the neck, and is a very rare thing. He had been ill for six months. Besides the parents, he is survived by one sister, Mrs. Frank Horr of this city.

Funeral services were held this afternoon at the late residence at 1:30 o'clock in charge of the Rev. R. R. Cross of Milroy, and burial was made in the cemetery at Milroy.

CONDITION UNCHANGED

Mrs. G. V. Conway, who is seriously ill at her home in North Main street, remains about the same, with little hope held for her recovery.

This is a part of the activities of the state wide Odd Fellow Reconsecration Week program which will be in progress throughout this jurisdiction this week and which was advertised by being broadcast from state headquarters last week.

The local part in the program will be postponed until the week of May 11 when the new Temple will be dedicated.

DRIVER ONLY OCCUPANT OF AUTO ESCAPING DEATH

Ralph Cotty, 32, of Indianapolis in Hospital and Wife, Three Children and Father Are Killed

CAR STRUCK BY INTERURBAN

(By United Press)

Indianapolis, Ind., April 20—Ralph Cotty, 32, lay in a serious condition in a hospital here today from injuries received in an auto accident Sunday at Ingalls in which his wife, his three children and his father were killed.

Cotty was told of his father's death but was kept in ignorance of the fate of his wife and children by hospital attendants, who feared the shock might prove fatal.

Holding the impression that his wife and children were in a hospital at Anderson, Cotty said he "guessed he got off lucky."

The auto in which Cotty and his family were riding was struck by a west bound interurban on the Union Traction lines at the crossing in Ingalls.

Cotty was hurled thirty feet in the air and fell clear of the tracks. The other occupants were caught in the wreckage of the auto and ground to death beneath the wheels of the interurban.

The dead were: Mrs. Mae Cotty, 25, Jennie Cotty, 8, Dorothy Cotty, 6, Ralph Cotty, Jr., 3, Lincoln Cotty, 63.

DEATH OF R. I. STEWART SUNDAY PROVES SHOCK

Ill Only Short Time With Acute Indigestion and Heart Trouble—Widow, 4 Children Survive

FUNERAL TUESDAY AT 2 P. M.

Robert I. Stewart, age 68 years, died at his home, 601 West Fifth street, Sunday morning at 12:40 o'clock, death being caused from acute indigestion and heart trouble. He was ill only a short time before his death, and his passing proved a shock to the family and friends.

He is survived by the widow, three sons and one daughter, who are: Homer Stewart of Indianapolis, Stanley and Paul Stewart of this city and Miss Mildred Stewart, who lives at home. He is also survived by two brothers, Sam Stewart of this city and William Stewart of Yabon, Okla., and four sisters, the Misses Ella, Mary and Elizabeth Stewart and Mrs. James Clore, all of this city.

Mr. Stewart was a lifelong member of the First Baptist church of this city. Funeral services will be held at the late residence Tuesday afternoon at two o'clock, and burial will be made in East Hill cemetery.

SHOWS ONE WAY TO GET ACQUAINTED

The Rev. Gibson Wilson Bars Main Entrance Door and People are Forced to Tarry at Church

DELIVERS SERMON ON TOPIC

Native of India at Christian Church and Missionary From India at Methodist Episcopal

The Rev. Gibson Wilson delivered a sermon on "How to Get Acquainted in Rushville," at the First Presbyterian church Sunday night, and then gave a demonstration of one method.

As people left the church, they found the entrance to the main auditorium had been blocked and all were required to leave through the parlors of the church. In doing so, everyone put into practice the message of the sermon by shaking hands and getting acquainted.

This was the first of a series of Sunday night sermons. Next Sunday evening the pastor's theme will be, "How to Sell Rushville". There was a special number by the choir last night and a quartet by Mr. and Mrs. George Hossett, Mrs. Neff Ashworth and Dr. Hale Pearsey.

Lalit K. Shaw, a native of India and a student of Butler college, who has an ambition to establish in India a school similar to Tuskegee Institute, spoke twice at the Main Street Christian church Sunday. In the morning he gave a brief history of the people of India, showing how they had been prevented from developing by ignorance and superstition. In the evening he spoke of the new India and the prospects of improving the living conditions of the people.

It was announced that a pitch-in dinner will be held at the church (Sunday, May 3, when the Rev. B. F. Cato will arrive here to begin his pastorate. This method will be used to welcome him and his family. Ted Spray of Frankfort will preach next Sunday.

Miss Jessie I. Peters, a missionary from India, spoke at St. Paul's Methodist Episcopal church Sunday morning and in the evening, the pastor, the Rev. H. W. Hargett, took for his popular sermon, "What Happened to Zebedee? Is the Same Thing Happening to Anyone in Rushville?"

No services were held at the First United Presbyterian church Sunday night on account of the pastor, the Rev. E. G. McKillen, being troubled with laryngitis, which made speaking difficult. He spoke in the morning on the subject, "The Serpent, The Type of Christ."

There were no preaching services at the First Baptist church Sunday on account of the illness of the pastor, the Rev. R. W. Sage, who is afflicted with tonsillitis and will be confined to his home for a week.

First Presbyterian

The Rev. Gibson Wilson took for his text Sunday evening at the First Presbyterian church Nehemiah 8:12, "And all the people went their way to eat, and to drink, and to send portions, and to make mirth, because they had understood the words that were declared unto them." The subject of his sermon was "How to Get Acquainted in Rushville, and in part he said:

"I have found the people of Rushville to be most friendly and cordial. They speak to me on the street and I speak to them. Many boys and girls speak to me on the street whose name I do not know but we know each other and are friends. I speak to the watchman at the crossings, to the men that clean the streets, to the draymen, to the coal haulers, firemen and policemen."

"It will do you good to speak to them. Do you speak to the boys that deliver your papers. Have you ever had any success getting acquainted at the picture show? While you sit in the dark room are you introduced to people?"

"I have met a few people at gatherings of men, but it is rather a slow place to get acquainted at a lodge, yet I have met a number there persons whom I do not meet at church. When you meet people at first smile to them, look at them as pleased. My own experience was that I had to train myself along

OUR young lady is writing her social correspondence on Corona. Is this good etiquette?

Lillian Eichler, author of the "Book of Etiquette," after telling how she wrote this famous book entirely with Corona, says: "My 'Book of Etiquette' encourages the use of the typewriter for social correspondence."

It is a breach of etiquette to allow letters to go unanswered for weeks, but a busy man or woman finds plenty of excuses for postponing the tiresome task. With Corona at your elbow, letter-writing acquires a new interest, and that is why many people of social prominence use Corona for all their correspondence. Coronatyping is easier, faster and more legible than handwriting.

the line of being friendly and gracious.

"To me, there is no better place to get acquainted than at church. Our nature is such that we need worship and fellowship. The people of Ezra's time had tried everything else and when they came back — to God and the place of worship they were happy.

"How can you help yourself to get acquainted in church? By taking part in the singing, sharing your songbook with another, handing a book to someone else. Do something to break down the barrier. Don't sit near the door so that you are out before the people of the church can get to see you. Reach out your hand to shake with others, make yourself known. Possibly they are more timid than you are. In the Sunday school is an excellent place to get acquainted. You meet in the classes in small groups and timidity is overcome.

"Go to the meetings of the church organizations. The Missionary society meets on Tuesday with Mrs. Schmalzel. That meeting is led by group No. 2. Appear there, tell them you are a stranger in Rushville and have come to get acquainted with the Presbyterian women. The Band of Workers meets on Wednesday afternoon with Mrs. John Spencer, 815 North Harrison street. That meeting is largely social, and no one is excused. You do not even have to become a member, just a visitor.

"Go to the Sunday school class meetings. They want you to come. Women need this social phase of life more than men because men are out more mingling with others in business.

"Determine in yourself to help in overcoming the difficulties which make it hard for you to get acquainted. If you are timid and reserved, remember that it is hard for the other person to break through the reserve.

"When church is out tonight, see how many persons with whom you can shake hands before you get out. Keep account of the numbers. Others talk about the Presbyterian church being a friendly church, and you may find it to be so. Look at people, smile to them, speak to them. Don't go along with your head down as if you didn't want to be disturbed in your meditations."

HOW MILK IS USED

Twenty cents out of every food dollar is spent for dairy products. Milk or milk products are used in almost every dish included in the daily meal.

Latest statistics prepared by the Bureau of Dairying of the Department of Agriculture show that 45.5 percent of the American Milk production, or almost one hundred billion pounds, is used directly in the form of milk. It is estimated that every man, woman, and child consume on an average of 50 gallons of milk each year. This is an increase of eight gallons over the 1917 per capita consumption figures.

The nation is eating more butter as well as drinking more milk. Per capita consumption of butter averages around 16.5 pounds, while in 1918 the average was but 14.6 pounds. More than one fourth of the yearly milk supply is made into butter, 23.6 percent of this is turned out as a commercial product.

Home-made butter is being relegated to the past. Since 1917 the output of farm made butter during the same period has decreased 27 percent. During 1923 only 12.8 percent of the 402,562,221,000 pounds of milk produced was turned into yellow butter pats in country kitchens. Twenty five years ago farm women were making on an average of 1,071,745,127 pounds. During 1923 they made less than 600,000,000 pounds, or 44 percent less. During the same period the production of manufactured butter increased from 420,954,061 pounds in 1899 to 1,200,000,000 pounds in 1923, an increase of 185 percent.

Americans are not big cheese eaters. The average consumption is less than 3.7 pounds per capita. This is a decrease of 0.1 per cent since 1901. Only 3.7 percent of the annual milk production is made in cheese. Condensed milk consumption has more than doubled since 1920 when the average consumption was six pounds per capita. Today the average consumption is 12.69 per capita.

Condensed milk plants last year absorbed 3.5 percent of the milk produced. Ice cream takes about the same amount. Calves drink around 4.2 percent. Less than 2 percent of the year's milk supply is used for such miscellaneous products as powdered milk and cream, malted and canned milk and milk chocolate. It is estimated that around 3 percent is wasted or lost.

First United Presbyterian

The sermon delivered Sabbath morning at the First United Presbyterian church, by the pastor, the Rev. E. G. McKibben, was based on three texts: "Their eyes were opened," "He opened unto them the scriptures," "Then opened he their mind." The sermon was in part:

"Springtime is a time of rejoicing. Mother nature gives up her secrets. The field claps their hands. The rivers shout for joy. The trees praise the Lord. For Lo, the winter is past, the rains are over and gone, the flowers appear in the earth, the time of the singing of birds is come, and the voice of the turtle dove is heard in the land. Another Easter season has passed into history, reminding us of the vacant tomb, with its broken seal and its risen ascending and glorified Christ. On that day three things happened to the eleven disciples and henceforth all things became different to them.

"Their eyes were opened. As Clopas and Lake went to Emmaus the risen Lord drew near and went with them. At the end of their journey, as they sat at meat, it is said 'Their eyes were opened and they knew Him and He vanished out of their sight.' In a spiritual sense they had been blind. Although they had been daily in his company for three years they had not fully realized either His divine nature, or His Lordship over nature, and men and nations, or what His real mission was. They had not known His Kingdom, its nature or its extent, or their relationship to it. But not that their eyes were opened, it could be said that 'They knew Him.'

"The scriptures were opened. The two, in a reminiscent mood, had said, 'Was not our heart burning within us, while He spake to us in the way, while He opened to us the scriptures?' He showed to them in all the scriptures the things concerning Himself. The Son reveals the Father's will and His Plans for the kingdom.

"Obscure texts became plain. Dark sayings shone as the sun in His Zenith power. The Old Testament rites and forms, dry and without interest in themselves, became alive and were food for the soul. It would be great if we had an outline of what Jesus talks about that day as 'He opened to them the Scriptures.'

"He opened their mind. Then opened He their mind that they should understand the scriptures. Our mind often is closed by prejudice, or wrong training, or by a distrust of God's providences. We need to remember that the God of nature is the God of revelation and that He is our Father and that He loves us. His promise is 'Fear not for I am with thee, Be not dismayed for I am thy God.' It is not His will that we lag the shore and play — safe. Launch out into the deep and let down your net for a draught. The gospel leaves are for the entire soul and for all the world.

"Let us pray for open eyes, and open minds and an opened scripture. Then we will grow as lilies grow in grace and beauty. As the corn in a fertile field grows 'enriched with every spiritual blessing in Christ Jesus, so as the oak grows in strength and in stability. Ye shall flourish as the palm tree. Ye shall grow as the cedar in Lebanon.'"

Health Possible to Stomach and Kidney Sufferers

Chiropractic Health Talk No. 210
By H. V. McCully, D. C., Ph. C.

The Stomach is sometimes referred to as the fire box of the body as it is here that food is first prepared so that it may later be changed into living cells. If this work is not done properly then there is an excess of work thrown on the kidneys. The kidneys are the workmen who, when healthy, keep the body free from poisons and toxins which are destructive to health.

If the nerves which convey the Life Force from the Brain down through the spinal column to the Stomach or Kidneys are pressed on at the point where they leave the spine—then the life current to these organs as well as their normal action is cut down in exact ratio to the pressure involved. If these nerves were severed you know these organs would be functionless and dead.

Some of the ill effects from the above conditions are—Gas in stomach and bowels, headache in the back of eyes with blurred vision, ache in top of head or base of skull, dizziness, tired feeling, rheumatic pains, palpitation of the heart, feeling of weight in the back of neck, and skin eruptions.

It is in these conditions that Chiropractic is especially efficacious. Under the method of Health Restoration used in this office, the cause of such weakness is removed.

Uncle Ben Says:

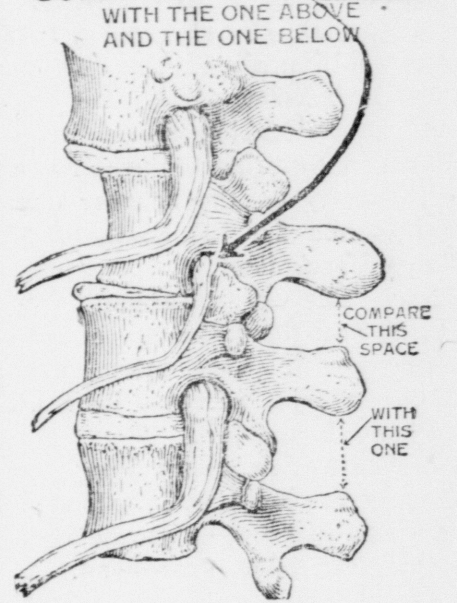

"Business is getting more efficient all the time. Where they used to fling mud at competitors, they now put it up in jars and sell it for 'Beauty Clay.'"

Dicting Failed, But Chiropractic Succeeds

"For several years my son suffered from headache and an undernourished condition. Physicians thought this was due to auto-intoxication and said the only relief obtainable would be through dieting. Under their treatment his condition gradually became worse. Reading an advertisement of Chiropractic, I became interested and decided to give it a trial. Under adjustments my boy has become normal, has gained several pounds and makes his grades in school. Without Chiropractic adjustments I believe he would have died."

PURDUE STUDENTS USE DYNAMITE IN CRCHARDS

Noteworthy work relative to the uses of dynamite in removing trees or other orchard work is being conducted by the Horticultural Department of Purdue University in its attempt to familiarize students with the many advantages and proper use of the explosive. Recently it became necessary to remove trees in parts of the University orchard, a number of these being in poultry yards. The tops of the trees were removed and then the stumps obliterated. Due to the relative closeness of the buildings, considerable precautions had to be taken. Practically all of the work was done by the horticultural students.

Both the compression cap and fuse and the electric charges were used in blasting. Observations were made as to the usage of each form, effectiveness, each of manipulation, rapidity of operation, etc. The students also received careful instruction as to the amount of dynamite to use for different sized stumps, the correct methods of placing and tamping the sticks and other useful information. Both methods were considerably cheaper and much easier than could have been done with stump pullers and teams.

The explosive is also indispensable in blasting hantpan, shattering rock, and forms of excavating work. When a few simple precautions are observed, the explosive is one of our most powerful, cheapest and safest form of farm labor known.

Dynamite is comparatively new as far as general use among farmers is concerned, and considering the many

advantages of the explosive, the university is endeavoring to encourage such usage among farmers.

"Vanity cases used 3000 B. C."

SCIENTIFIC excavations in the ancient city of Kish, so we are told by a news dispatch, show that women carried vanity cases forty-nine centuries ago. Why did not the luxuries of that old civilization spread to the rest of the world? Why were the delicate and pleasure-bringing things of life buried and hidden away for so many ages?

Without the printed word, information could hardly be spread to other countries, and the knowledge of events and things could scarcely be preserved. Today, if a better rug is produced in Kurdistan, it is soon advertised for sale in American newspapers. If a better necklace is made in China, a printed advertisement will shortly describe it and quote the price on the other side of the globe.

Advertising publishes the secrets of good things from one end of America to the other. The newest and best products of forty-eight states are told about, fully and truthfully, wherever the public press is read.

Read the advertisements every evening and you keep from being buried like Kish.

May Day Changes

May Day was once regarded as a
children's holiday. The May pole
was symbolic of its purpose.

More recently it has been designat-
ed as the anniversary of the revo-
lution in prospect, the one that
has never come to pass, especially
in foreign lands. "Reds" have fa-
vored substituting hempen ropes for
white May pole streamers. It has
spoiled the day.

The Order of DeMolays proposes
to change the order of things and
has designated the first day of May
as Patriots' Day. Every one of the
1400 chapters in the country will
hold patriotic parades and flag ex-
ercises.

The American Child Health associa-
tion also revolts at the idea that
has grown up as the conception of
what May Day stands for, and has
laid plans for observance of Na-
tional Child Health day.

Both are worthy enterprises. Any-
thing that counteracts "red" sen-
timent for revolution needs en-
couragement. The DeMolay proposes
to overcome the evil influence with
a substitute and the child health
organization proposes to restore the
day to its true significance.

The child health organization will
be led by Secretary of Commerce
Hoover in promotion of Child Health
Day, when everyone will be called
upon to take note of health. The
changed May Day really ought to
become a national habit.

Although the American concep-
tion of government does not include
legislation that stifles individuals,
yet there is a social consciousness
that recognizes the obligations of
government, as representative of
the people, to unfortunates.

Much of what an earlier genera-
tion denounced and damned as
"Socialism" is now accepted as a
matter of course. The state recog-
nizes responsibility for unfortun-
ates who are unable to care for
themselves. Gradually we are dis-
covering that some experiments in
public charity once regarded as
extreme are nothing of the sort.

Widows' pensions furnish a good
example. Granting that the public
conscience would not permit child-
ren to starve after the death of
their fathers, we have discovered
that it is better to help mothers to
care for their children than to con-
fine the children to orphan asylums.
It is cheaper too. We are beginning
to wonder whether it may not be
better—and in the long run more
economical—to pay attention to
child health now and save hospital
expense later. It might be good busi-
ness to spend more to provide pre-
vention and less for cure.

Cutting Down The Overhead

The country is still suffering from
the off-hand creation of independ-
ent governmental agencies all finan-
ced with the money of the tax-pay-
ers and all functioning largely in-
dependent of direct control. The
total expenditures of these various
departments runs into many millions
of dollars. Ostensibly under the di-
rect control of the president and
free of ordinary departmental su-
pervision, it has been long appre-
ciated that money was being wasted
and that the country was being
committed to a number of "folder-
ol" activities.

All this for some time has been
holding the attention of the presi-
dent and his own matter-of-fact
way he has now ordered a survey
of these departments, their person-
nel and their activities, and particu-
larly their pay-rolls, with the idea
of eliminating or consolidating
those divisions which are not justifi-
fying the expense. It is about time
this was done, and the president
has selected the proper moment. It
is already intimated that a saving
of from ten to twenty million is
possible.

Of course, there will be wailing on
the part not only of the chiefs of
these little governmental principal-
ities at losing their jobs, and there
will be additional wailing on the
part of the gentlemen who got them
their jobs in the first instance, but
the president need not worry, and is
not likely to worry, judging by his
attitude in the past, over these
temporary teapot tempests which
may develop.

Politicians all over the Sixth dis-
trict say that they were never so

Stewart's Washington Letter

BY CHARLES P. STEWART
NEA Service Writer

WASHINGTON—Washington's
new traffic director, M. O.
Eldridge, aims to make the
capital a model for the whole
country in the matter of automo-
bile regulation.

His theory is that drunken driv-
ers, fleeing bootleggers and miscel-
laneous morons are responsible for
most accidents. It's in whizzing
around corners that they gener-
ally get in their work, he says.
Also he thinks there has been too
strong a tendency on the authori-
ties' part to subordinate pedest-
rians' safety to motorists' con-
venience. Eldridge is going to fix
all this. And no more spooning
at the wheel of a car, he adds.

"Nobody," he insists, "can drive
judiciously with his arm around a
girl's waist."

Finally, Eldridge concludes, traf-
fic regulations, no matter how
good, are no good at all unless
rigidly enforced, and right there,
he observes, is where a majority
of cities fall down. He won't.

THE Justice Department sent
very few appeals to be sent
to the Atlanta penitentiary for
25 years. That, however, is just
what Gerald Chapman wants, and
in his case it's easy to understand
why. He insists that the federal
government only loaned him to
Connecticut to try him for murder,
and he thinks a borrowed article
should be returned in as good
condition as it was borrowed in.
Besides, if he's hanged, how can he
serve out his long Atlanta sen-
tence for robbing the mails?

The Justice Department hasn't
made up its mind.
The fact is, the attorney gen-
eral isn't as much interested in
Chapman's technicality as Chap-
man is. The government has more
prisoners than it wants now. At
this very time Luther C. White,
new superintendent of federal
prisons, is at Leavenworth, trying
to find an excuse for paroling all

the convicts he can. Leaven-
worth has more than twice as
many inmates as it was built to
hold. Atlanta isn't quite that bad,
but bad enough. So much accom-
modation wasn't needed in the old
days. Prohibition law violations
hadn't been invented then.

SMALLPOX is more prevalent
than the government Public
Health Service likes. Not only
are there too many cases but they
are increasingly malignant.

The idea is that people develop
considerable power of resisting a
disease they have had among them
for several generations, and either
don't catch it or have it lightly if
they do. Thus the disease finally
runs itself out. Only it isn't dead,
just dormant. Reawakened, it
usually finds a generation which
has lost the old immunity, and
begins again as a much worse dis-
ease than it left off.

Just so with smallpox. It partly
ran itself out and was partly
stamped out by vaccination. Now
that it appears to be reasserting
itself, it may prove to be deadlier
than ever, though fortunately
under better control.

Keep vaccinated, is the Public
Health Service's advice.

THE State Department is hear-
ing from many American resi-
dents of France who are
scared at the prospect of a capital
levy. Some of them have large
French property holdings, espe-
cially the branches of various big
American companies.

A capital levy, if made, will hit
them all. They can't get their
wealth out of the country, either.
Present French laws forbid. The

government proposes to take a
large chunk—10 per cent, and it
will be more than that if the franc
slumps, as probably it will.

If France were a little country,
like one of the Central American
republics, the State Department
might see its way clear to oppos-
ing this confiscation. Being France,
it isn't likely to do so.

ABSOLUTE LAW ENFORCEMENT—I promise the citizens of Rush-
ville that I will enforce all laws so long as they are on the Statute Books and that in
so far as it is within my power, I will see that officers are appointed who will, without
fear or favor, enforce the law.

MAINTAIN WATER & LIGHT PLANT—I promise to maintain the
Water and Light Plant as a City owned plant, with rates as low as is consistent with
the service given and the proper operation of the plant, and to fight any attempt of
any person to do away with the plant as a city plant and sell it to private individuals.

CITY & COMMUNITY PROGRESS—I promise to do all within my
power, consistent with the best interests of the good people of Rushville, to further
the growth of this city, to bring new industries here and to develop present industries,
to the end that Rushville may become the thriving city that it should be.

TAXES—I promise that I will personally investigate each and every proposal
which would increase taxes, and oppose those that are not absolutely necessary for
the benefit of the city, and to see that taxes collected, are properly expended, and that
the citizens of Rushville receive full value for every dollar of their money so expended
and to see that taxes are, at all times, kept to the lowest possible limit.

ONE POINT MARGIN TO WIN TRACK MEET

Rushville High School Track and Field Team Defeats Shelbyville in Dual Meet

ONE RUNNER DISQUALIFIED

Keeney of Shelbyville, However, is Given First Place Over Miller in 220 Yard Dash

The Rushville high school track and field team won another meet Saturday afternoon, this time running up against stiffer opposition, but outpointing Shelbyville by a lone counter, 50 to 49. The events were run off at Shelbyville.

Some good records were made by both teams, and the events were close all of the way. In the 220 yard dash Keeney of Shelbyville was given first place over Miller of Rushville on account of a misunderstanding, as he was disqualified. It was decided at the time that Miller should be given first place, which would have made the final result several points different.

Farthing for Rushville, in the broad jump was injured when he sprained his ankle and knee, and he will probably be out of the squad for several weeks.

The results of the meet are as follows:

220 yard dash, 1. Keeney S; 2. Miller, R. Time 24.3.

High hurdles, 120 yards, 1. Miller R; 2. McNamara, R; 3. Pitman, R.

220 yard hurdles, 1. Newbold, R; 2. Thompson, S; 3. Joyce, R.

Pole vault, tied first, Newbold R, Griffey, S., and tied third, Arbuckle R., and Farthing R. 10 feet, 4.

Shot put, 1. Lakin, R; 2. Miller, R; 3. Fix, S. 40 feet, 6 inches.

High jump, 1. Messick S; 2. Farthing R; 3. Miller, S. 5 feet, 7 inches.

1 mile run, 1. McCarty, S; 2. Joyce, R. Time 5:22.

440 yard dash, 1. Hobbs S; 2. Campbell S; 3. McNamara, R. Time 60 seconds.

Broad jump, 1. Miller R; 2. Fix, S; 3. Comforth S. Distance 19 feet, 10 1/2 inches.

880 yard, 1. Morris, S; 2. McCarty S; 3. Joyce, R. Time 2:16.

For weak Run-down Condition!

THE DOOR of opportunity flings wide its portals only to the man who is up and doing—who is filled with pep and punch—with rich, red blood tingling through his system. Mountain size obstacles dwindle to ant hills and ambitions become accomplishments to these sort of men.

Where is the employer who seeks the man who is physically run-down? The man without stamina to withstand the knocks and gaff of the hurrying, scurrying world of business?

S.S.S. is the long established and time honored creator of red-blood-cells. You cannot expect to get very far up the ladder unless you are equipped with a body that is strong and vigorous. S.S.S. will start you on your way. Don't allow the "Door of Opportunity" to be closed to you because you have not the stamina to withstand the gaff — because your nerve power is lacking. Build up your system!

S.S.S. made of carefully selected and scientifically prepared and proportioned herbs and barks makes you fit! Get back that old time punch! When opportunity knocks be ready to answer the call!

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

Few College Players Succeed

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 20—Considering the mental equipment that they should possess, the opportunity for a technical education from three to four years under an experienced teacher and the financial inducements for success, it is rather strange that so few of the college baseball players who hit the big leagues are able to remain there.

The list of college players who have made good in major leagues has been printed so many times that it should have been memorized long ago. The outstanding examples are Eddie Collins, manager of the Chicago White Sox, George Sisler, manager of the St. Louis Browns, and Frankie Frisch, captain and star second baseman for the New York Giants.

There are others that might be mentioned, but the list of successes is dwarfed by the pages of those who tried and failed.

There must be a reason why so many college men cannot play baseball against players who have had

no educational advantages—players almost of the Babe Ruth type, who came from an orphan asylum and became the most discussed star in the history of baseball.

It ought to be reasonable that a young man with a college degree should be a smarter and better ball player—granting that he had some natural ability of course—than a lesser educated player of the old rough and ready days.

Some major league scouts who spend their summers traveling from college to college will tell you that it is the possession of brains that handicaps a college player, that he tries to think too much, and pays too much attention to "inside baseball."

Most of the college baseball teams are coached by former major league players. The case of Holy Cross, coached by Jack Barry, is a good example. There are more scouts scouts checking in and out of Worcester during the baseball season to look over Barry's boys than there are in any other college town of the country, especially since the baseball magnates began to realize that the college type of player was a good type for the game.

Retains Title

SUNDAY FISHING IS NOT ILLEGAL

Geo. N. Mannfeld, State Conservation Head, Denies Reports Concerning Arrests

BUT LICENSES ARE REQUIRED

If Non-Residents do Not Possess Permits, They Are Subject to Arrest at Any Time

Indianapolis, Ind., April 20—There is no truth in persistent rumors that game wardens are arresting persons for fishing on Sunday.

This statement was made today by George N. Mannfeld, chief of the fish and game division of the state conservation department, in answer to hundreds of telephone and written queries from persons all over the state who claim a report is being circulated that state wardens are enforcing the old blue law.

There is no section in the fish and game laws of this state making it unlawful to fish on Sunday, conservation officials say. Therefore they do not propose that wardens pay any attention to Sunday fishing. However, wardens are interested in knowing if fishermen have licenses and also that undersized fish not be taken and that the closed seasons are not violated.

Due to failure of the blue Sunday law bill to pass in the recent legislature, which bill was supported by a religious sect at Fort Wayne, the minister in charge now threatens to prosecute any one found fishing on Sunday. This notice appearing in the press of the state, has had much to do with the rumor that state wardens are going to enforce a blue Sunday law, which is not true, department officials say.

It was made plain by Mannfeld that his department has nothing to do with enforcing laws other than the ones in the fish and game code. Any arrests made for Sunday fishing would have to be made under the old blue laws with which game wardens are not interested and for which they are not empowered by law to enforce.

Department officials report fishing as good this spring in most of the Hoosier streams and also state that work is well advanced at the various state hatcheries for propagating baby fish for public stream stocking. The Avoca hatchery will be in operation this year for the first time and the majority of the hatch there will be planted in southern waters. More than eighty counties sent in applications for stock fish this spring.

Brazil—Just as the Rev. Taylor, of Indianapolis, started to preach a funeral sermon for Mary Cartwright, colored, the floor of the Mt. Zion negro church gave way and dropped about two feet.

Future Champ?

Richard Shelton (above) may some day be heavyweight champion of the world. At least, he hopes to get a chance at the title in the not too distant future. Yes, Shelton's a real cowboy from the plains of Texas. He's six feet five and weighs 211 pounds. He's reputed to be remarkably fast, too.

RUSHVILLE ATHLETES FIGURE IN TWO MEETS

Herman Phillips and John Davis Help Butler and Earlham College Track Teams Win Points

BOTH ARE ON RELAY TEAMS

Two former Rushville high school athletes figured in winning track and field events for two Indiana colleges at meets Saturday.

Herman Phillips, one time star floor guard on the basketball team and distance man on the track team is a member of the Butler college relay team, which won the mile and the half mile relay at the Kansas relay carnival in Kansas Memorial stadium at Lawrence, Kansas, Saturday afternoon.

Butler hung up a new Kansas collegiate record in the half mile and a new Kansas record in the mile. Phillips runs last on the team and always has the needed burst of speed to pull his team through to victory.

John Davis of Rushville, captain of the Earlham track team, won several points for his team in the dual meet with Wabash at Richmond Saturday afternoon.

Davis is a member of the relay team which defeated the Wabash runners and he placed second in the 100 yard dash, second in the 220 yard dash, and third in the running high jump.

KEEPING ONE EYE ON THE SCORE BOARD

Yesterday's Hero: Leo Dickerman, young pitcher, held the Cubs to four hits and the Cardinals won 6 to 0. Lester Bell hit his third homer in two days.

Home runs by Kelly and Wilson helped the Gaints beat the Brooklyn Robins, 4 to 3. Terry will be out of the New York lineup for several days with a pulled tendon in his knee.

Heavy hitting off Robertson enabled the Browns to win their first game of the season with a 11 to 4 victory over the White Sox.

Two singles, two triples and a base on balls gave the Reds four runs in the 7th and a 6 to 2 victory over the Pirates. Laque fanned eight Pirates.

SPORT CHATTER

New York—Earl Sande, America's leading jockey, who was dangerously injured in a spill at Saratoga last summer, will return to the track at Belmont Park next Saturday.

Boston—Star distance runners from all over the country were among the 121 entries for the 29th annual Boston marathon, which was to be run today over the Olympic distance of 26 miles from Hopkinton to Boston. Clarence DeMar, 37 year old Melrose sprinter who has finished first three years in succession, was picked as the favorite.

Kansas City, Mo.—Stanislaus Zyzszko, who threw Wayne Munn in Philadelphia a week ago may wrestle Ed Strangler Lewis at Michigan City, Ind., May 30, but not if Lewis has to issue the challenge, according to Billy Sandow, Lewis' manager. "We never lost the title," Sandow said. Munn was declared winner of his bout with Lewis Jan. 8. Sandow claims Munn should have been disqualified for fouling Lewis.

Bloomington, Ind.—The Ohio State-Indiana baseball game here Wednesday afternoon, the conference opener for the Hoosiers, will be the headline attraction on the Indiana sports schedule this week. Ohio State always has a strong team, and with a record of an overwhelming victory over Purdue last week, will provide plenty of competition for Coach Dean's proteges.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.

Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

Twenty-two guests were present, including Mr. and Mrs. Orval Biggs, Wilber Biggs and family and Clarence and Raymond Mane of Greensboro, Ind., Hazel Wiley and Norah Hall of Indianapolis, Homer Hall and family of Center township, Mr. and Mrs. Gale Carson, Mr. and Mrs. Chester Hall and son, Mrs. Mary Nixon and Earnest Hall of this city. After the delicious dinner was served the guests were entertained with musical selections by Master Wayne Hall.

"Something Just as Good"

A woman in New Mexico received the following letter from a Philadelphia firm: "Dear Madam: We are sorry to state that we cannot furnish Peppys Diary about which you inquired, but we have Line-a-Day books from \$2.50 to \$6 each. If you would like one of them, we will be glad to attend to your order as soon as it reaches here."

ALL WORN OUT

So Was Mrs. Sutton Who Tells Her Experience

Are you tired all the time; worn-out night and day? Does your back ache as if it would break? Do you suffer dizziness, headaches, rheumatic twinges or distressing urinary disorders? You have good cause, then, to be alarmed about your kidneys. Do as many of your townfolk recommend. Use Doan's Pills—a stimulant diuretic to the kidneys. This Rushville case is convincing.

Mrs. Wm. Sutton, 613 W. Third St., says: "Backache wore me out. Severe attacks of headaches came often and I also became dizzy and spots before my eyes blurred my sight. My kidneys didn't act often enough, so I used Doan's Pills, from Pitman & Wilson's Drug Store and they cured me of kidney trouble."

HAPPY DAYS FOR UGLY DUCKLING BECAUSE STYLES ARE HELPING HER

BY HEDDA HOYT
(U. P. Fashion Editor)

New York, April 20—

Alas! The sweet and pretty doll is shadowed by the plain-faced Moll;

For nowadays every sleek-haired sheik

Prefers a girl who's plain but chic. A pretty girl hasn't a chance these days. "Chic" has a much higher value than prettiness and very few pretty women will sacrifice beauty for chic. The pretty woman still insists on choosing hats which give a soft outline for the face, frocks which are cut to show the roundness of her neck and arms and furbelows that are becoming, rather than stylish.

The plainer type of woman, on the other hand, perches a small felt tightly over her uncured bob, wears, perhaps, a smart high neckline and long sleeves, reddens her lips regardless of the shape of her mouth, adds pallor to her cheeks, wafts her cane in the air and looks as smart as can be.

She isn't a doll, but she's a walking advertisement for the fashion plates. If her better looking sister wears the same outfit, you can be sure she will have a curl at either side of her hat, a little "country air" applied to her cheeks, a neckline that is several seasons old and shoes that are strapped and strained to draw attention to the ankle, rather than severely tailored. She concentrates on beauty rather than chic and fails at both.

When curls, ruffles, dimples and soft effects were the mode, the ugly girl didn't have a chance in the world. The more she primed the less attractive she became. But today the most attractive women are generally minus beautiful faces. They are interesting rather than good looking and they wear clothes as they are meant to be worn. They have no pretty features to be augmented by color schemes, no special places to park their beauty patches, so they give all their attention to their ensemble and let their faces get along as best they can—which is pretty well in most cases.

It's much easier for a plain girl to look smart than it is for a pretty one. If you doubt this, wrap a brilliant scarf about your neck and add a peanut-sized hat of the same colorings and see how you look. If you are pretty, your prettiness will be lessened by the high coloring and by the complete covering of your hair and neck. If you are plain, you will look much smarter with the scarf and hat than without them.

The plain woman knows that she has to be charming, gracious, broadminded and intelligent to get by in this world. She knows that no rolling of her eyes is going to break any hearts. Unless she adds something to the lives of those with whom she comes in contact she will become a back number. She becomes unselfish and unvain—except in the matter of dress. Soon people forget her plainness and think only of her wholesomeness and of her

perfect grooming, and she becomes more popular with the sheiks about town than her simpering and petted sisters who hold beauty as a fetish. The time when the ugly girls looked into an old-maid future is past. It's the pretty girls who often find themselves parked on the matrimonial shelf. And as soon as these pretty girls learn that there is something more important in life than dreamy eyes or baby stare, they will get in the game again.

The successful homely girl goes in for unusual effects in dress or up-to-the-minute styles instead of doll like clothes. As a doll she is the proverbial lemon, but as a lively-faired fashion plate she is a peach.

ONE of these skeleton dresses for which you can provide a number of different blouses is a great convenience in the wardrobe. Pleasant blouses with colorful hand embroidery are very attractive so worn.

There is no reason for the ugly duckling to weep into her tea in 1925 for fashions are made for her. If she follows them she will become a twelve-cylinder model and will leave beauty at the base of the hill as she high-speeds it into the hearts of the sheiks. Watch her!

RAT CAMPAIGN

Lawrence Co. waged war on rats during the week, Feb. 23 to 28. The campaign was a success in every way owing to the complete cooperation of the entire county. It was estimated that 3500 rats were destroyed. The Chamber of Commerce of Bedford offered prizes for the five best essays on rat control and in the neighborhood of 1000 essays were written on the subject. They also offered \$5.00 for the longest rat tail brought in during the week. The prize was won on a rat tail 8 5/8 inches long.

TO PROBE MILK, CREAM RATES

Interstate Commerce Commission Orders Inquiry in Indiana

Washington, April 20—An investigation into charges on milk and cream moving to and from points in the state of Indiana was ordered today by the Interstate Commerce commission.

All railroads operating within the state were made responsive to the proceedings. "The investigation," the commission said, "is instituted on the claim or motive to decide whether rates on milk and cream are reasonable or contrary with the provision of the Interstate commerce act."

Hearing will be assigned at a future date, the commission announced.

ced, and in all probability sessions will be held throughout the state.

Columbia City—Miss Helen Grayson, and Miss Elva Bridenthall, both 15, who ran away from Chicago recently equipped with \$50, a pair of dice and a supply of cigarettes, were taken back home by their mothers.

Columbus—In being initiated into the Joli Couer club, composed of young women Miss Anne Cole, a school teacher here, scrubbed the sidewalk in front of the Gause Cafe with a tooth brush, soap, and water.

Movies

"Slave of Desire," Castle
A great literary classic, from the pen of Honore de Balzac, will be seen at the Castle theatre today. It is "Slave of Desire," from Balzac's "The Magic Skin," a compelling dramatic novel inculcating the theme that one pays for what one obtains.

George Walsh, one of the most popular leading men in the movies, plays the part of Raphael Valentin, young Parisian poet and dreamer about whom the story centers.

The appealing Bessie Love has one of the best emotional roles of her career as Pauline, his sweetheart, while Carmel Myers, as the alluring Countess Fedora, has all the men of Paris literally at her feet. Some other players in the film are Wally Van Enthalp, Jensen, Edward Connelly, William Orlamond, Nicholas de Ruiz and William von Harzenburg.

"A Broadway Butterfly"

Broadway's ever-changing aspect is always absorbing, and for that reason movie-goers will be interested in knowing that the feature attraction today and Tuesday at the Princess theatre will be "A Broadway Butterfly."

In the present instance, William Beaudine has gathered together six stellar players to enact "A Broadway Butterfly"—Louise Fazenda, Willard Louis, Dorothy Devore, John Roche, Lilian Tashman and Callen Landis—making the last a phenomenally meritorious one. With the picture set against authentic Broadway locations, and with real Broadway laughter and tears, the photo-play promises to give an evening's pleasant entertainment.

"A Broadway Butterfly" is, in brief, the story of a shy little slip of a girl, who comes to Broadway to garner the laurels and glory of a stage career. To her unsophisticated eyes, the whole panorama of Broadway is a beautiful, jeweled land of happiness, but when she faces reality behind the painted scenes of the white lights, all is not what it seems.

2,000 At Spring Opening of Haydon's Hardware Store

There was an estimated attendance of 2,000 at the spring opening of Haydon's hardware store Friday and Saturday, a total of 1,769 persons having actually registered during the two days. Each woman guest of the store was presented with a carnation, and 1,300 of these were given away.

Those who attended the opening were treated to demonstrations of products sold in the store and musical selections by Charles Schimmell of the E. C. Atkins Saw company, on a hand saw. While here he also appeared at the Princess theatre and won enthusiastic applause.

Representatives of manufacturers here for the opening were: Mr. Catlin of the DeLaval Separator Co.; Mr. Mege of the Perfection Paint and Color Co.; Mr. Leonard of the Peninsular Stove Co.; Mr. Campbell of the Maytag Co.; and Mr. Schimmell. Mrs. Hal Pike demonstrated the National steam pressure cooker.

MARRIAGE LICENSE

A marriage license has been issued to William Jesse Wortman, a clerk of Indianapolis, and Lorene Gosman, daughter of Mr. and Mrs. Samuel Gosman of Carthage. A license also has been issued to Donald Stoten, a laborer of Knightstown, and Mildred Herkless, daughter of Mr. and Mrs. William L. Herkless of Carthage.

LOW RECORD IN FIRES AT WARSAW

Report of State Fire Marshal For Last Year, Places Them on Bottom With Total \$255

BLOOMINGTON HAD HIGHEST

Rushville Was Close Behind Holding Down Third Place With \$23.43 Per Capita Loss

Indianapolis, Ind., April 20—Bloomington suffered the largest per capita fire loss of any Indiana city over 4,000 population in 1924 and Warsaw the smallest, Newman T. Miller, state fire marshal declared today.

According to Miller the loss in Warsaw per person was five cents, while in Bloomington it reached the high figure of \$32.06.

Bloomington had 69 fires during the year with property damage which totaled \$371,776.

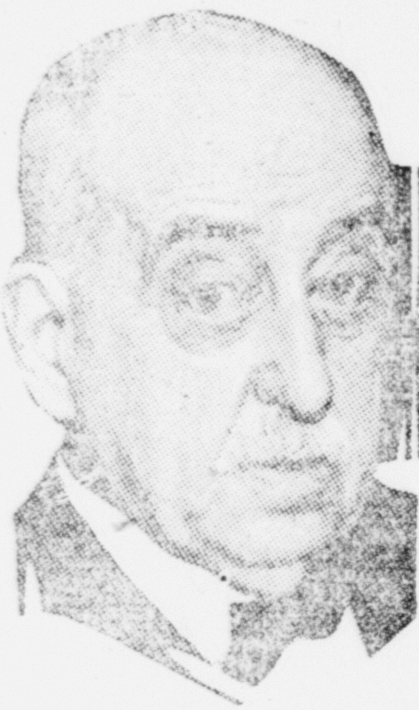

Only eleven fires occurred in Warsaw which destroyed only \$255 worth of property.

Indianapolis, the winner of the national fire waste contest, had a per capita loss of \$3.86 last year, Miller said. This was a decrease of 34 cents under the 1923 figure.

Forty-one Indiana cities had a fire loss of less than one dollar for each person during the year. These cities include Bicknell with a loss of 86 cents, Elkhart, 8 cents; Hartford City, 41 cents; Huntington, 69 cents; Michigan City, 93 cents; Shelbyville, 64 cents, and Washington 52 cents.

Eight other towns which had exceptionally high losses included Columbus with a loss for each person of \$10.55; Evansville, \$10.59; Peru \$15.17; Portland, \$28.83;

State Witness

Dr. Charles Krausmark of Chicago who treated Mrs. McClintock mother of William McClintock whose death is being probed has told authorities that no mercury medicines were given to Mrs. McClintock during her fatal illness. An autopsy on the body shows traces of bichloride of mercury. The autopsy was part of an investigation being made by the state in its case against William Shepherd accused of young McClintock's death.

Princeton, \$14.32; Rushville, \$23.43, and Valparaiso, \$11.71.

All of the estimates are based on the 1920 census which, in most cases at least would be smaller if based on the present population. This is particularly true of Michigan City where on the estimated 1924 population the loss would be only 68 cents, Miller declared.

Michigan City—A terror-stricken Notre Dame student will no longer boast of his wild parties in the east. What he supposed was the husband of one of the women in the party staged by other students for him showed up flourishing a gun.

RUSHVILLE NOT IN THE STATE

One Sixth District Winner Places First in Latin Contest

Paul Leonhard of Newcastle, winner in division three in the sixth district Latin contest, was first in the same division in the state contest, according to an announcement regarding the results of the final event from Bloomington.

Rushville high school did not have the right to enter the state contest, on account of having failed to win first place in either of the four divisions in the district event.

A Rushville contestant, Miss Mary Maude Reed, placed second in di-

vision four in the district, but only first place winners went to the state.

Lucid was not explained.

Mayor Thomas told Lucid that he had better not appear here again, or the charge against him would stand and the penalty inflicted.

Prosecutor Ketchum stated that he wanted it understood that he was not responsible for the prisoner being permitted to go on a light fine, and Mayor Thomas replied that he would be responsible and take the blame, if there was any.

DIRECTORS WONDERING WHERE THE MONEY WENT

Report of Lew Wallace, Receiver For Hawkins Mortgage Co., Shows Only \$10,000 in Cash

OTHER ASSETS NEGLIGIBLE

Indianapolis, Ind., April 20—Investors in the Hawkins Mortgage Co., of Portland, Ind., and its affiliated loan organizations were wondering today just where their money went.

The report of Lew Wallace, receiver for the Hawkins company, showed it had only \$10,000 in cash and that other assets were practically negligible.

In promoting the sale of Hawkins stock, officials of the company represented the firm as being a flourishing concern with assets of "at least \$9,000,000, according to federal authorities.

Fourteen officials of the Hawkins company and allied organizations were convicted in federal court last fall of conspiracy to use the mails to defraud. Twelve have taken appeal from prison sentences.

Morton Hawkins, head of the company, jumped bond before he was to go on trial on similar charges and was later rearrested in Dayton, O.

Hawkins is now fighting in federal court in Ohio to escape being returned to Indianapolis for trial.

STEPHENSON AWAITS NEXT MOVE IN CASE

Prisoner in "Federal Row" in Marion County Jail, He Jokes With Other Inmates

SUBMITS TO ARREST TODAY

Eph Inman Expected to Start Habeas Corpus Proceedings to Obtain Release on Bail

HENCHMEN ALSO IN JAIL

Marion County Sheriff Prepared to Resist Efforts of Defense in Marion Case

(By United Press)

Indianapolis, Ind., April 20—Laughing and joking with other prisoners, D. C. Stephenson, at one time "old man" of the Ku Klux Klan of Indiana, paced the "bull pen" in the Marion county jail this afternoon awaiting the next move of his attorney on the murder charge against him for the death of Miss Madge Oberholtzer.

Earl Klenck, a former deputy sheriff, and Earl Gentry, under indictment with Stephenson on the murder charge, were also held without bond in the jail.

Within a few hours Eph Inman, attorney for the trio, is expected to launch habeas corpus proceedings to secure their release on bond.

Stephenson joked with the other prisoners in the "bull pen," men accused of bootlegging, white slavery, murder and other crimes, about his week-end fishing trip while authorities hunted for him to arrest him.

He ate heartily of the jail ration of friend liver, gravy and potatoes at noon.

Attorney James Curtis, who represented Sheriff Hawkins in the Habeas corpus proceedings, conferred with the sheriff this afternoon. Curtis said the habeas corpus papers had not been filed but that he was ready for the move if it comes.

Any motion for a writ of habeas corpus is expected to attack the evidence on which the murder indictment was returned. In a motion to dismiss the early indictments charging Stephenson and his aides with kidnapping Miss Oberholtzer, Inman contended the evidence was incompetent.

A motion for a writ of habeas corpus for the release of the three men on bond is expected to be the next move in the case.

In the event of an adverse ruling, it is said an appeal will be taken to the state supreme court.

Inman conferred with Stephenson for a short time while the latter was awaiting the arrival of the sheriff. It was understood the legal move in the first for Stephenson's freedom were under discussion.

The former Klan dragon said he left Indianapolis shortly before noon Saturday for a fishing trip in the southern part of the state.

If he had known the grand jury was going to return the new indictment against him, he would not have left the city, Stephenson said.

The three men, who had been mysteriously missing from Indianapolis since their indictment Saturday, returned to the city and went to the office of Eph Inman, their attorney.

A deputy sheriff, on guard outside the building, called Sheriff Hawkins and a moment later Inman phoned Hawkins to notify him that the three men were ready to surrender.

Hawkins, accompanied by a deputy, went immediately to Inman's office and made the arrests.

Stephenson and his two henchmen were taken to the county jail and placed in "federal row" where federal prisoners and county prisoners held on serious charges are kept.

MRS. JACOB SHAFFER IS DEAD

Born in Ireland and Came to This Country When 11 Years Old

Mrs. Kate Shafer, wife of Jacob Shafer, living on the Applegate farm, southeast of Rushville, died Sunday night about 9:30 o'clock, death being caused from an illness with dropsy and heart trouble. Mrs. Shafer was born in Ireland and came to this country when eleven years of age. Her maiden name was Mullin.

She had been a resident of that community for the past ten years. She was 60 years of age and is survived only by the husband.

Funeral services will be held at the late residence Tuesday morning at ten o'clock, and burial will be made in East Hill cemetery.

RUSHVILLE TAKES TWO SECONDS IN DISTRICT

Team of Three Members Wins Place in Bookkeeping Contest—Russell Taylor Takes a First

TEAM 2ND IN TYPEWRITING

The Rushville high school commercial team entrants in the district contest held Saturday at Columbus, fared fairly well and took two second place positions, and individual honors were also won by a local student.

Three pupils comprised a team, and in the bookkeeping division, Columbus was first, Rushville second and Shelbyville third, with three other schools being represented in that division.

Russell Taylor of the local school, a member of the team took individual honors in the bookkeeping division, and was awarded a ribbon.

In the amateur typewriting division, Rushville also took second place and made a good record in this branch of the contest.

The signal honors for the state competition were divided between Columbus and Shelbyville, who won first places in the various events.

THREE COMMENCEMENTS SCHEDULED FOR THE WEEK

Closing Exercises at Moscow Tonight, Arlington Tuesday Night and New Salem Wednesday

18 ARE GRADUATED IN UNION

Three high school commencements are scheduled for the first of this week, with Moscow holding their exercises tonight, Arlington Tuesday and New Salem on Wednesday night.

The Rev. J. S. E. McMichael of Connersville will deliver the address at Moscow tonight, and the program will be given at the church. Dr. Noble Sherwood, state school superintendent, will be the speaker for the Arlington commencement tomorrow night, and on Wednesday the Rev. Mr. McMichael will be at New Salem.

The first of the eighth year graduations was held Saturday night at the church in Glenwood, when 18 pupils of Union township were given diplomas. The schools of Ging and Glenwood were equally represented, and the Rev. Gibson Wilson of this city delivered the address.

Supreme Court Refuses to Review Gary Liquor Cases

(By United Press)

Washington, April 20—The Supreme court today denied a petition of six of the fifty-five men convicted in the Gary liquor conspiracy case for a review of their conviction.

The six included Roswell O. Johnson, former mayor of Gary; Lewis E. Barnes, former president of the board of public works, and Dwight M. Kinder, former prosecuting attorney of Lake county.

IT'S A LONG NIGHT THAT HAS NO DAWN

TWO HUSBANDS FILE SUITS FOR DIVORCES

Harry B. Levi of Rushville and Thomas Moore of Union Township Charge Abandonment

LATTER'S WIFE GONE 3 YEARS

Two husbands are seeking divorces from their wives in complaints filed in the circuit court, and in each case, abandonment is charged against the wives as the foremost reason for their separation.

Harry B. Levi, 918 West Third street, is plaintiff in one action against Inez Levi, charging that they were married May 26, 1923, and separated April 16 of this year when she is alleged to have left home and gone to Shelbyville to live. During their married life, the complaint asserts that she failed to provide meals, frequently left home during the day and night time, and remained away from home, and finally on the day of the separation she is alleged to have taken her belongings and left for Shelbyville.

In the other complaint, Thomas Moore, a farmer of Union township charges his wife with having left him, and has failed to live with him since May 1922. They were married in 1897, according to the complaint and aside from the fact that she has been missing from his home for three years, he has no other plea for a divorce.

LUCINDA A. FLEENER DIES

Former Rush County Woman Expires in Hancock County Sunday

Lucinda A. Fleener, age 72, widow of the late W. H. Fleener, formerly of this county, died at her home in Hancock county early Sunday morning, death being caused from pneumonia. She was a daughter of the late Jacob Mural of this county.

Surviving her are two daughters and also a sister Mrs. Amanda Wilhelm of Franklin county. Mrs. J. E. Miller, south of Rushville is a niece. Funeral services will be held at the Shiloh church in Hancock county Tuesday afternoon at two o'clock.

NO SERVICES SUNDAY

There were no services at the First Baptist church Sunday on account of the illness of the pastor, the Rev. R. W. Sage. Mr. Sage is suffering with tonsillitis and will probably will be confined to his home for a week.

FINED, SENTENCED, AND THEN RELEASED

George Lucid, Stranger Here, Owes Freedom to Unknown Woman Who Makes Successful Plea to Mayor

FOUND WITH BOOZE IN CAR

Sentence of 30 Days and Fine of \$100 Imposed and Commitment Papers Ready

A smooth talking woman with a wonderful appeal for sympathy worked on the heart strings of Mayor Walter R. Thomas this morning in police court, when a man giving his name as George Lucid of Indianapolis, was permitted to go on a fine of \$1 and most after pleading guilty to liquor law violations.

Lucid, together with two other men supposed to be from Indianapolis, were arrested Sunday night in front of a local restaurant by Patrolmen Smith and Everman. Lucid had a bottle of liquor in his pocket and there was also some in the machine. The trio was placed in jail and arraigned this morning.

The other two were only detained as witnesses, as they were not intoxicated. Prosecutor Ketchum filed two charges against Lucid, one for intoxication, and the other for transportation of liquor. After questioning, he admitted his guilt to both charges and was given the minimum fine of \$100 and costs and 30 days in jail on the transportation charge.

Three women who had come here from Indianapolis were in court, and one of them asked permission to speak a few words, and she said the man was in destitute circumstances, with a wife and five small children needing his support at home. Prosecutor Ketchum in the meantime prepared the commitment papers for the sentence, but the sympathy plea worked, and he was fined \$1 and costs for being drunk. The woman who had done the talking went down deep into her stock and paid the fine.

Lucid is said to reside in the 900 block in Buchanan street, Indianapolis. Some are of the opinion that the men and women were probably rum runners, and the story was used to let them off on easy terms. The woman who paid the fine, did so promptly, apparently being prepared financially for any emergency that might arise. The woman's name was not given in court and her relationship to the case or her interest in it. (Continued on Page Eight)

WOMAN MURDERESS IS SOUGHT IN INDIANAPOLIS

Shots and Fatal Wounds Harry Keeley, 43, Who Resists Attempts to Rob Him

20 YEARS OLD, WELL DRESSED

(By United Press)

Indianapolis, Ind., April 20—With several tangible clues to follow, the police homicide squad combed the underworld districts of Indianapolis today for the woman murderess of Harry Keeley, 43.

The woman shot Keeley when he resisted her attempts to hold him up. She was described as about 20 years old and fashionably dressed. The girl attempted to hold up Keeley last night and shot him twice through the abdomen.

Grabbing her tight skirt up about her knees, she ran down the street and disappeared in the darkness before persons attracted by the shots could take up the pursuit.

Keeley was taken to the city hospital in a serious condition and died today.

SUCCUMBS TO RARE AILMENT

Howard Arbuckle, 17, Dies of Hodgson's Disease in Circleville

Howard Arbuckle, 17 years old son of Mr. and Mrs. Charley E. Arbuckle, living east of Circleville on the road to East Hill cemetery, died at the family home Saturday afternoon at 5:40 o'clock, death resulting from Hodgson's disease. The ailment is an incurable disease that affects the glands in the neck, and is a very rare thing. He had been ill for six months. Besides the parents, he is survived by one sister, Mrs. Frank Horr of this city.

Funeral services were held this afternoon at the late residence at 1:30 o'clock in charge of the Rev. R. R. Cross of Milroy, and burial was made in the cemetery at Milroy.

CONDITION UNCHANGED

Mrs. G. V. Conway, who is seriously ill at her home in North Main street, remains about the same, with little hope held for her recovery.

TO GIVE GOLDEN RULE DEGREE

Bernice Encampment to Take Part in Reconciliation Week Program

The degree staff of Bernice Encampment No. 12 I. O. O. F. will go to Arlington this evening for the purpose of conferring the Golden Rule degree for the lodge there. Several candidates from the local encampment will be given the work at the same time.

This is a part of the activities of the state wide Odd Fellow Reconciliation Week program which will be in progress throughout this jurisdiction this week and which was advertised by being broadcast from state headquarters last week.

The local part in the program will be postponed until the week of May 11 when the new Temple will be dedicated.

DRIVER ONLY OCCUPANT OF AUTO ESCAPING DEATH

Ralph Cotty, 32, of Indianapolis in Hospital and Wife, Three Children and Father Are Killed

CAR STRUCK BY INTERURBAN

(By United Press)

Indianapolis, Ind., April 20—Ralph Cotty, 32, lay in a serious condition in a hospital here today from injuries received in an auto accident Sunday at Ingalls in which his wife, his three children and his father were killed.

Cotty was told of his father's death but was kept in ignorance of the fate of his wife and children by hospital attendants, who feared the shock might prove fatal.

Holding the impression that his wife and children were in a hospital at Anderson, Cotty said he "guessed he got off lucky."

The auto in which Cotty and his family were riding was struck by a west bound interurban on the Union Traction lines at the crossing in Ingalls.

Cotty was hurled thirty feet in the air and fell clear of the tracks. The other occupants were caught in the wreckage of the auto and ground to death beneath the wheels of the interurban.

The dead were: Mrs. Mae Cotty, 25, Jennie Cotty, 8, Dorothy Cotty, 6, Ralph Cotty, Jr., 3, Lincoln Cotty, 63.

DEATH OF R. I. STEWART SUNDAY PROVES SHOCK

Ill Only Short Time With Acute Indigestion and Heart Trouble—Widow, 4 Children Survive

FUNERAL TUESDAY AT 2 P. M.

Robert I. Stewart, age 68 years, died at his home, 601 West Fifth street, Sunday morning at 12:40 o'clock, death being caused from acute indigestion and heart trouble. He was ill only a short time before his death, and his passing proved a shock to the family and friends.

He is survived by the widow, three sons and one daughter, who are Homer Stewart of Indianapolis, Stanley and Paul Stewart of this city and Miss Mildred Stewart, who lives at home. He is also survived by two brothers, Sam Stewart of this city and William Stewart of Yabon, Okla., and four sisters, the Misses Ella, Mary and Elizabeth Stewart and Mrs. James Clore, all of this city.

Mr. Stewart was a lifelong member of the First Baptist church of this city. Funeral services will be held at the late residence Tuesday afternoon at two o'clock, and burial will be made in East Hill cemetery.

SHOWS ONE WAY TO GET ACQUAINTED

The Rev. Gibson Wilson Bars Main Entrance Door and People are Forced to Tarry at Church

DELIVERS SERMON ON TOPIC

Native of India at Christian Church and Missionary From India at Methodist Episcopal

The Rev. Gibson Wilson delivered a sermon on "How to Get Acquainted in Rushville," at the First Presbyterian church Sunday night, and then gave a demonstration of one method.

As people left the church, they found the entrance to the main auditorium had been blocked and all were required to leave through the parlors of the church. In doing so, everyone put into practice the message of the sermon by shaking hands and getting acquainted.

This was the first of a series of Sunday night sermons. Next Sunday evening the pastor's theme will be, "How to Sell Rushville." There was a special number by the choir last night, and a quartet by Mr. and Mrs. George Hogsett, Mrs. Neff Ashworth and Dr. Hale Pearsey.

Lalit K. Shaw, a native of India and a student of Butler college, who has an ambition to establish in India a school similar to Tuskegee Institute, spoke twice at the Main Street Christian church Sunday. In the morning he gave a brief history of the people of India, showing how they had been prevented from developing by ignorance and superstition. In the evening he spoke of the new India and the prospects of improving the living conditions of the people.

It was announced that a pitch-in dinner will be held at the church Sunday, May 3, when the Rev. B. F. Cato will arrive here to begin his pastorate. This method will be used to welcome him and his family. Ted Spray of Frankfort will preach next Sunday.

Miss Jessie I. Peters, a missionary from India, spoke at St. Paul's Methodist Episcopal church Sunday morning and in the evening, the pastor, the Rev. H. W. Hargett, took for his popular sermon, "What Happened to Zebedee? Is the Same Thing Happening to 'Anyone' in Rushville?"

No services were held at the First United Presbyterian church Sunday night on account of the pastor, the Rev. E. G. McKibben, being troubled with laryngitis, which made speaking difficult. He spoke in the morning on the subject, "The Serpent, The Type of Christ."

There were no preaching services at the First Baptist church Sunday on account of the illness of the pastor, the Rev. R. W. Sage, who is afflicted with tonsillitis and will be confined to his home for a week.

First Presbyterian

The Rev. Gibson Wilson took for his text Sunday evening at the First Presbyterian church Nehemiah 8:12, "And all the people went their way to eat, and to drink, and to send portions, and to make mirth, because they had understood the words that were declared unto them." The subject of his sermon was "How to Get Acquainted in Rushville, and in part he said:

"I have found the people of Rushville to be most friendly and cordial. They speak to me on the street and I speak to them. Many boys and girls speak to me on the street whose name I do not know but we know each other and are friends. I speak to the watchman at the crossings, to the men that clean the streets, to the draymen, to the coal haulers, firemen and policemen."

"It will do you good to speak to them. Do you speak to the boys that deliver your papers. Have you ever had any success getting acquainted at the picture show? While you sit in the dark room are you introduced to people?"

"I have met a few people at gatherings of men, but it is rather a slow pace to get acquainted at a lodge, yet I have met a number there whom I do not meet at church. When you meet people at first smile to them, look at them as pleased. My own experience was that I had to train myself, alone."

the line of being friendly and gracious.

"To me, there is no better place to get acquainted than at church. Our nature is such that we need worship and fellowship. The people of Ezra's time had tried everything else and when they came back to God and the place of worship they were happy.

"How can you help yourself to get acquainted in church? By taking part in the singing, sharing your songbook with another, handing a book to someone else. Do something to break down the barrier. Don't sit near the door so that you are out before the people of the church can get to see you. Reach out your hand to shake with others, make yourself known. Possibly they are more timid than you are. In the Sunday school is an excellent place to get acquainted. You meet in the classes in small groups and timidity is overcome.

"Go to the meetings of the church organizations. The Missionary society meets on Tuesday with Mrs. Schmalzel. That meeting is led by group No. 2. Appear there, tell them you are a stranger in Rushville and have come to get acquainted with the Presbyterian women. The Band of Workers meets on Wednesday afternoon with Mrs. John Spencer, 815 North Harrison street. That meeting is largely social, and no one is excused. You do not even have to become a member, just a visitor.

"Go to the Sunday school class meetings. They want you to come. Women need this social phase of life more than men because men are out more mingling with others in business.

"Determine in yourself to help in overcoming the difficulties which make it hard for you to get acquainted. If you are timid and reserved, remember that it is hard for the other person to break through the reserve.

"When church is out tonight, see how many persons with whom you can shake hands before you get out. Keep account of the numbers. Others talk about the Presbyterian church being a friendly church, and you may find it to be so. Look at people, smile to them, speak to them. Don't go along with your head down as if you didn't want to be disturbed in your meditations."

HOW MILK IS USED

Twenty cents out of every food dollar is spent for dairy products. Milk or milk products are used in almost every dish included in the daily meal.

Latest statistics prepared by the Bureau of Dairying of the Department of Agriculture show that 45.5 percent of the American milk production, or almost one hundred billion pounds, is used directly in the form of milk. It is estimated that every man, woman, and child consume on an average of 50 gallons of milk each year. This is an increase of eight gallons over the 1917 per capita consumption figures.

The nation is eating more butter as well as drinking more milk. Per capita consumption of butter averages around 16.5 pounds, while in 1918 the average was but 14.0 pounds. More than one fourth of the yearly milk supply is made into butter; 23.6 percent of this is turned out as a commercial product.

Home-made butter is being related to the past. Since 1917 the output of farm-made butter during the same period has decreased. 27 percent. During 1923 only 12.8 percent of the 102,562,221,000 pounds of milk produced was turned into yellow butter pats in country kitchens. Twenty five years ago farm women were making on an average of 1,071,745,127 pounds. During 1923 they made less than 600,000,000 pounds, or 44 percent less. During the same period the production of manufactured butter increased from 420,954,061 pounds in 1899 to 1,200,000,000 pounds in 1923, an increase of 185 percent.

Americans are not big cheese eaters. The average consumption is less than 3.7 pounds per capita. This is a decrease of 0.1 per cent since 1900. Only 3.7 percent of the annual milk production is made in cheese. Condensed milk consumption has more than doubled since 1920 when the average consumption was six pounds per capita. Today the average consumption is 12.69 per capita.

Condensed milk plants last year absorbed 3.5 percent of the milk produced. Ice cream takes about the same amount. Calves drink around 4.2 percent. Less than 2 percent of the year's milk supply is used for such miscellaneous products as powdered milk and cream, malted and canned milk and milk chocolate. It is estimated that around 3 percent is wasted or lost.

First United Presbyterian

The sermon delivered Sabbath morning at the First United Presbyterian church, by the pastor, the Rev. E. G. McKibben, was based on three texts: "Their eyes were opened," "He opened unto them the scriptures," "Then opened he their mind." The sermon was in part: "Springtime is a time of rejoicing. Mother nature gives up her secrets. The field claps their hands. The rivers shout for joy. The trees praise the Lord. For Lo, the winter is past, the rains are over and gone, the flowers appear in the earth, the time of the singing of birds is come, and the voice of the turtle dove is heard in the land. Another Easter season has passed into history, reminding us of the vacant tomb, with its broken seal and its risen ascending and glorified Christ. On that day three things happened to the eleven disciples and henceforth all things became different to them.

"Their eyes were opened. As Clopas and Luke went to Emmaus the risen Lord drew near and went with them. At the end of their journey, as they sat at meat, it is said 'Their eyes were opened and they knew Him and He vanished out of their sight. In a spiritual sense they had been blind. Although they had been daily in his company for three years they had not fully realized either. His divine nature, or His Lordship over nature, and men and nations, or what His real mission was. They had not known His Kingdom, its nature or its extent, or their relationship to it. But not, that their eyes were opened, it could be said that 'They knew Him.'

"The scriptures were opened. The two, in a reminiscent mood, had said, 'Was not our heart burning within us, while He spake to us in the way, while He opened to us the scriptures?' He showed to them in all the scriptures the things concerning Himself. The Son reveals the Father's will and His Plans for the kingdom.

"Obscure texts, became plain. Dark sayings shone as the sun in His Zenith power. The Old Testament rites and forms, dry and without interest in themselves, became alive and were food for the soul. It would be great if we had an outline of what Jesus talks about that day as 'He opened to them the Scriptures.'

"He opened their mind. Then opened He their mind that they should understand the scriptures. Our mind often is closed by prejudice, or wrong training, or by a distrust of God's providences. We need to remember that the God of nature is the God of revelation and that He is our Father and that He loves us. His promise is 'Fear not for I am with thee. Be not dismayed for I am thy God.' It is not His will that we hag the shore and play safe. Launch out into the deep and let down your net for a draught. The gospel leaves are for the entire soul and for all the world.

"Let us pray for open eyes, and open minds and an opened scripture. Then we will grow as lilies grow in grace and beauty. As the corn in a fertile field grows enriched with every spiritual blessing in Christ Jesus, so as the oak grows in strength and in stability. Ye shall flourish as the palm tree. Ye shall grow as the cedar in Lebanon."

Health Possible to Stomach and Kidney Sufferers

Chiropractic Health Talk No. 210
By H. V. McCully, D. C., Ph. C.

The Stomach is sometimes referred to as the fire box of the body as it is here that food is first prepared so that it may later be changed into living cells. If this work is not done properly then there is an excess of work thrown on the kidneys. The kidneys are the workmen who, when healthy, keep the body free from poisons and toxins which are destructive to health.

If the nerves which convey the Life Force from the Brain down through the spinal column to the Stomach or Kidneys are pressed on at the point where they leave the spine—then the life current to these organs as well as their normal action is cut down in exact ratio to the pressure involved. If these nerves were severed you know these organs would be functionless and dead.

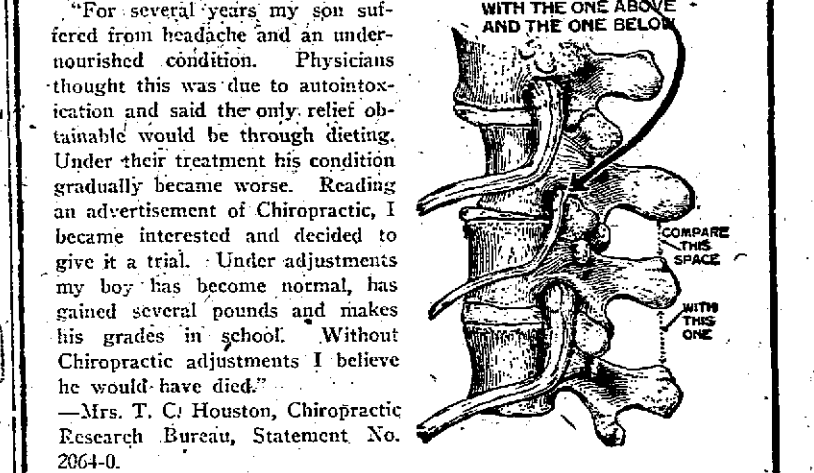

Some of the ill effects from the above conditions are—Gas in stomach and bowels, headache in the back of eyes with blurred vision, ache in top of head or base of skull, dizziness, tired feeling, rheumatic pains, palpitation of the heart, feeling of weight in the back of neck, and skin eruptions.

It is in these conditions that Chiropractic is especially efficacious. Under the method of Health Restoration used in this office, the cause of such weakness is removed.

Uncle Ben Says:

"Business is getting more efficient all the time. Where they used to fling mud at competitors, they now put it up in jars and sell it for 'Beauty Clay.'"

PURDUE STUDENTS USE DYNAMITE IN ORCHARDS

Noteworthy work relative to the uses of dynamite in removing trees or other orchard work is being conducted by the Horticultural Department of Purdue University in its attempt to familiarize students with the many advantages and proper use of the explosive. Recently it became necessary to remove trees in parts of the University orchard, a number of these being in poultry yards. The tops of the trees were removed and then the stumps blasted. Due to the relative closeness of the buildings, considerable precautions had to be taken. Practically all of the work was done by the horticultural students.

Both the compression cap and fuse and the electric charges were used in blasting. Observations were made as to the usage of each form, effectiveness, ease of manipulation, rapidity of operation, etc. The students also received careful instruction as to the amount of dynamite to use for different sized stumps, the correct methods of placing and tamping the sticks and other useful information. Both methods were considerably cheaper and much easier than could have been done with stump pullers and teams.

The explosive is also indispensable in blasting hailpan, shattering rock, and forms of excavating work. When a few simple precautions are observed, the explosive is one of our most powerful, cheapest and safest form of farm labor known.

Dynamite is comparatively new as far as general use among farmers is concerned, and considering the many

advantages of the explosive, the university is endeavoring to encourage such usage among farmers.

"Vanity cases used 3000 B. C."

SCIENTIFIC excavations in the ancient city of Kish, so we are told by a news dispatch, show that women carried vanity cases forty-nine centuries ago. Why did not the luxuries of that old civilization spread to the rest of the world? Why were the delicate and pleasure-bringing things of life buried and hidden away for so many ages?

Without the printed word, information could hardly be spread to other countries, and the knowledge of events and things could scarcely be preserved. Today, if a better rug is produced in Kurdistan, it is soon advertised for sale in American newspapers. If a better necklace is made in China, a printed advertisement will shortly describe it and quote the price on the other side of the globe.

Advertising publishes the secrets of good things from one end of America to the other. The newest and best products of forty-eight states are told about, fully and truthfully, wherever the public press is read.

May Day Changes

May Day was once regarded as a

children's holiday. The May pole

was symbolic of its purpose.

More recently it has been desig-

inated as the anniversary of the re-

volution in prospect, the one that

has never come to pass, especially

in foreign lands. "Reds" have fa-

voiced substituting hempen ropes for

white May pole streamers. It has

spoiled the day.

The Order of DeMolays proposes

to change the order of things and

has designated the first day of May

as Patriots' Day. Every one of the

1400 chapters in the country will

hold patriotic parades and flag ex-

Much of what an earlier generation denounced and damned as "Socialism" is now accepted as a matter of course. The state recognizes responsibility for unfortunate who are unable to care for themselves. Gradually we are discovering that some experiments in public charity once regarded as extreme are nothing of the sort.

Widows' pensions furnish a good example. Granting that the public conscience would not permit children to starve after the death of their fathers, we have discovered that it is better to help mothers to care for their children than to confine the children to orphan asylums. It is cheaper too. We are beginning to wonder whether it may not be better—and in the long run more economical—to pay attention to child health now and save hospital expense later. It might be good business to spend more to provide prevention and less for cure.

Cutting Down The Overhead

The country is still suffering from the off-hand creation of independent governmental agencies all financed with the money of the tax-payers and all functioning largely independent of direct control. The total expenditures of these various departments runs into many millions of dollars. Ostensibly under the direct control of the president and free of ordinary departmental supervision, it has been long appreciated that money was being wasted and that the country was being committed to a number of "folderol" activities.

All this for some time has been holding the attention of the president and his own matter-of-fact way he has now ordered a survey of these departments, their personnel and their activities, and particularly their pay-rolls, with the idea of eliminating or consolidating those divisions which are not justifying the expense. It is about time this was done, and the president has selected the proper moment. It is already intimated that a saving of from ten to twenty million is possible.

Of course, there will be wailing on the part not only of the chiefs of these little governmental principalities at losing their jobs, and there will be additional wailing on the part of the gentlemen who got them their jobs in the first instance, but the president need not worry, and is not likely to worry, judging by his attitude in the past, over these temporary teapot tempests which may develop.

WASHINGTON—Washington's new traffic director, M. O. Eldridge, aims to make the capital a model for the whole country in the matter of automobile regulation.

His theory is that drunken drivers, fleeing bootleggers and miscellaneous motorists are responsible for most accidents. It's in whirling around corners that they generally get in their worst work, he says. Also he thinks there has been too strong a tendency on the authorities' part to subordinate pedestrians' safety to motorists' convenience. Eldridge is going to fix all this. And no more spooning at the wheel of a car, he adds.

"Nobody," he insists, "can drive judiciously with his arm around a girl's waist."

Finally, Eldridge concludes, traffic regulations, no matter how good, are no good at all unless rigidly enforced, and right there, he observes, is where a majority of cities fall down. He won't.

THE Justice Department gets very few appeals to be sent to the Atlanta penitentiary for 25 years. That, however, is just what Gerald Chapman wants, and in his case it's easy to understand why. He insists that the federal government only loaned him to Connecticut to try him for murder, and he thinks a borrowed article should be returned in as good condition as it was borrowed in. Besides, if he's hanged, how can he serve out his long Atlanta sentence for robbing the mails?

The Justice Department hasn't made up its mind.

The fact is, the attorney gen-

eral isn't as much interested in Chapman's technicality as Chap-

man is. The government has more prisoners than it wants now. At

this very time Luther C. White,

new superintendent of federal

prisons, is at Leavenworth, trying

eryone is only waiting for the other

fellow to make the move.

ONE POINT MARGIN TO WIN TRACK MEET

Rushville High School Track and Field Team Defeats Shelbyville in Dual Meet

ONE RUNNER DISQUALIFIED

Keeney of Shelbyville, However, is Given First Place Over Miller in 220 Yard Dash

The Rushville high school track and field team won another meet Saturday afternoon, this time running up against stiffer opposition, but outpointing Shelbyville by a lone counter, 50 to 49. The events were run off at Shelbyville.

Some good records were made by both teams, and the events were close all of the way. In the 220 yard dash Keeney of Shelbyville was given first place over Miller of Rushville on account of a misunderstanding, as he was disqualified. It was decided at the time that Miller should be given first place, which would have made the final result several points different.

Farthing for Rushville, in the broad jump was injured when he sprained his ankle and knee, and he will probably be out of the squad for several weeks.

The results of the meet are as follows:

220 yard dash, 1. Keeney S; 2. Miller, R. Time 24.3.

High hurdles, 120 yards, 1. Miller R; 2. McNamara, R; 3. Pitman, R.

220 yard hurdles, 1. Newbold, R; 2. Thompson, S; 3. Joyce, R.

Pole vault, tied first, Newbold R, Griffey, S., and tied third, Arbuckle R., and Farthing R. 10 feet, 4.

Shot put, 1. Lakin, R; 2. Miller, R; 3. Fix, S. 40 feet, 6 inches.

High jump, 1. Messick S; 2. Farthing R; 3. Miller, S. 5 feet, 7 inches.

Mile run, 1. McCarty, S; 2. Joyce, R. Time 5:2.

440 yard dash, 1. Hobbs S; 2. Campbell S; 3. McNamara. Time 60 seconds.

Broad jump, 1. Miller R; 2. Fix, S; 3. Conforth S. Distance 19 feet, 10 1/2 inches.

880 yard, 1. Morris, S; 2. McCarty S; 3. Joyce, R. Time 2:16.

Few College Players Succeed

By HENRY L. FARRELL (United Press Sports Editor)

New York, April 20—Considering the mental equipment that they should possess, the opportunity for a technical education from three to four years under an experienced teacher and the financial inducements for success, it is rather strange that so few of the college baseball players who hit the big leagues are able to remain there.

The list of college players who have made good in major leagues has been printed so many times that it should have been memorized long ago. The outstanding examples are Eddie Collins, manager of the Chicago White Sox, George Sisler, manager of the St. Louis Browns, and Frankie Frisch, captain and star second baseman for the New York Giants.

There are others that might be mentioned, but the list of successes is dwarfed by the pages of those who tried and failed.

There must be a reason why so many college men cannot play baseball against players who have had

no educational advantages—players almost of the Babe Ruth type, who came from an orphan asylum and became the most discussed star in the history of baseball.

It ought to be reasonable that a young man with a college degree should be a smarter and better ball player—granting that he had some natural ability of course—than a lesser educated player of the old rough and ready days.

Some major league scouts who spend their summers traveling from college to college will tell you that it is the possession of brains that handicaps a college player, that he tries to think too much and pays too much attention to "inside baseball."

Most of the college baseball teams are coached by former major league players. The case of Holy Cross, coached by Jack Barry, is a good example. There are more scouts scouts checking in and out of Worcester during the baseball season to look over Barry's boys than there are in any other college town of the country, especially since the baseball magnates began to realize that the college type of player was a good type for the game.

Retains Title

SUNDAY FISHING IS NOT ILLEGAL

Geo. N. Mannfeld, State Conservation Head, Denies Reports Concerning Arrests

BUT LICENSES ARE REQUIRED

If Non-Residents do Not Possess Permits, They Are Subject to Arrest at Any Time

Indianapolis, Ind., April 20—There is no truth in persistent rumors that game wardens are arresting persons for fishing on Sunday. This statement was made today by George N. Mannfeld, chief of the fish and game division of the state conservation department, in answer to hundreds of telephone and written queries from persons all over the state who claim a report is being circulated that state wardens are enforcing the old blue law.

There is no section in the fish and game laws of this state making it unlawful to fish on Sunday, conservation officials say. Therefore they do not propose that wardens pay any attention to Sunday fishing. However, wardens are interested in knowing if fishermen have licenses and also that undersized fish not be taken and that the closed seasons are not violated.

Due to failure of the blue Sunday law bill to pass in the recent legislature, which bill was supported by a religious sect at Fort Wayne, the minister in charge now threatens to prosecute any one found fishing on Sunday. This notice appearing in the press of the state has had much to do with the rumor that state wardens are going to enforce a blue Sunday law, which is not true, department officials say.

It was made plain by Mannfeld that his department has nothing to do with enforcing laws other than the ones in the fish and game code. Any arrests made for Sunday fishing would have to be made under the old blue laws, with which game wardens are not interested and for which they are not empowered by law to enforce.

Department officials report fishing as good this spring in most of the Hoosier streams and also state that work is well advanced at the various state hatcheries for propagating baby fish for public stream stocking. The Avoca hatchery will be in operation this year for the first time and the majority of the hatch there will be planted in southern waters. More than eighty counties sent in applications for stock fish this spring.

Brazil—Just as the Rev. Taylor, of Indianapolis, started to preach a funeral sermon for Mary Cartwright, colored, the floor of the Mt. Zion negro church gave way and dropped about two feet.

Future Champ?

Richard Shelton (above) may someday be heavyweight champion of the world. At least, he hopes to get a chance at the title in the not too distant future. Yes, Shelton's a real cowboy from the plains of Texas. He's six feet five and weighs 210 pounds. He's reputed to be remarkably fast.

MUSKIE ATHLETES FIGURE IN TWO MEETS

Herman Phillips and John Davis Help Butler and Earlham College Track Teams Win Points

BOTH ARE ON RELAY TEAMS

Two former Rushville high school athletes figured in winning track and field events for two Indiana colleges at meets Saturday.

Herman Phillips, one time star floor guard on the basketball team and distance man on the track team is a member of the Butler college relay team, which won the mile and the half mile relay at the Kansas relay carnival in Lawrence, Kansas, Saturday afternoon.

Butler, hung up a new Kansas collegiate record in the half mile and a new Kansas record in the mile. Phillips runs last on the team and always has the needed burst of speed to pull his team through to victory.

John Davis of Rushville, captain of the Earlham track team, won several points for his team in the dual meet with Wabash at Richmond Saturday afternoon.

Davis is a member of the relay team which defeated the Wabash runners and he placed second in the 100 yard dash, second in the 220 yard dash and third in the running high jump.

KEEPING ONE EYE ON THE SCORE BOARD

Yesterday's Hero: Leo Dickerman, young pitcher, held the Cubs to four hits and the Cardinals won 6 to 0. Lester Bell hit his third homer in two days.

Home runs by Kelly and Wilson helped the Giants beat the Brooklyn Robins, 4 to 3. Terry will be out of the New York lineup for several days with a pulled tendon in his knee.

Heavy hitting off Robertson enabled the Browns to win their first game of the season with a 11 to 4 victory over the White Sox.

Two singles, two triples and a base on balls gave the Reds four runs in the 7th and a 6 to 2 victory over the Pirates. Luque fanned eight Pirates.

SPORT CHAPTER

New York—Earl Sande, America's leading jockey, who was dangerously injured in a spill at Saratoga last summer, will return to the track at Belmont Park next Saturday.

Boston—Star distance runners from all over the country were among the 121 entries for the 29th annual Boston marathon, which was to be run today over the Olympic distance of 26 miles from Hopkinton to Boston. Clarence DeMar, 37 year old Melrose sprinter, who has finished first three years in succession, was picked as the favorite.

Kansas City, Mo.—Stanislas Zyzsko, who threw Wayne Munn in Philadelphia a week ago may wrestle Ed Strangler Lewis at Michigan City, Ind., May 30, but not if Lewis has to issue the challenge, according to Billy Sandow, Lewis' manager. "We never lost the title," Sandow said. Munn was declared winner of his bout with Lewis Jan. 8. Sandow claims Munn should have been disqualified for fouling Lewis.

Bloomington, Ind.—The Ohio State-Indiana baseball game here Wednesday afternoon, the conference opener for the Hoosiers, will be the headline attraction on the Indiana sport schedule this week. Ohio State always has a strong team, and with a record of an overwhelming victory over Purdue last week, will provide plenty of competition for Coach Dean's proteges.

Guard Against "Flu" With Mustrale

Influenza, Grippe, and Pneumonia usually start with a cold. The mucus you get from a cold, if not taken care of, gets into the lungs.

Mustrale is a counter-irritant that makes a coughing fit (which is what a cold really is) and stimulates circulation. It is all the good qualities of the old-fashioned mustard plaster without the heat.

Just rub it on with your finger tips. You will feel a warm tingling as the heating ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Mustrale handy for emergency use. It may prevent serious illness.

Tuberculosis Mustrale is also made in milder form for babies and small children. Ask for Children's Mustrale.

ALL WORN OUT

So Was Mrs. Sutton Who Tells Her Experience

Are you tired all the time; worn-out night and day? Does your back ache as if it would break? Do you suffer dizziness, headaches, rheumatic twinges or distressing urinary disorders? You have good cause, then, to be alarmed about your kidneys. Do as many of your townfolk recommend. Use Doan's Pills—a stimulant diuretic to the kidneys. This Rushville case is convincing.

Mrs. Wm. Sutton, 613 W. Third St., says: "Backache wore me out. Severe attacks of headaches came often and I also became dizzy and spots before my eyes blurred my sight. My kidneys didn't act often enough, so I used Doan's Pills, from Pitman & Wilson's Drug Store and they cured me of kidney trouble."

HAPPY DAYS FOR UGLY DUCKLING BECAUSE STYLES ARE HELPING HER

BY HEDDA HOYT
(U. P. Fashion Editor)

New York, April 20—Alas! The sweet and pretty doll is shadowed by the plain-faced Moll;

For nowadays every sleek-haired sheik

Prefers a girl who's plain but chic. A pretty girl hasn't a chance these days. "Chic" has a much higher value than prettiness and very few pretty women will sacrifice beauty for chic. The pretty woman still insists on choosing hats which give a soft outline for the face, frocks which are cut to show the roundness of her neck and arms and furbelows that are becoming, rather than stylish.

The plainer type of woman, on the other hand, perches a small felt tightly over her, uncured bob, wears, perhaps, a smart high neckline and long sleeves, reddens her lips regardless of the shape of her mouth, adds pallor to her cheeks, wafts her cane in the air and looks as smart as can be.

She isn't a doll, but she's a walking advertisement for the fashion plates. If her better looking sister wears the same outfit, you can be sure she will have a curl at either side of her hat, a little "country air" applied to her cheeks, a neckline that is several seasons old and shoes that are strapped and strained to draw attention to the ankle, rather than severely tailored. She concentrates on beauty rather than chic and fails at both.

When curls, ruffles, dimples and soft effects were the mode, the ugly girl didn't have a chance in the world. The more she primed the less attractive she became. But today the most attractive women are generally minus beautiful faces. They are interesting rather than good looking and they wear clothes as they are meant to be worn. They have no pretty features to be augmented by color schemes, no special places to park their beauty patches, so they give all their attention to their ensemble and let their faces get along as best they can—which is pretty well in most cases.

It's much easier for a plain girl to look smart than it is for a pretty one. If you doubt this, wrap a brilliant scarf about your neck and add a peanut-sized hat of the same colorings and see how you look. If you are pretty, your prettiness will be lessened by the high coloring and by the complete covering of your hair and neck. If you are plain, you will look much smarter with the scarf and hat than without them.

The plain woman knows that she has to be charming, gracious, broadminded and intelligent to get by in this world. She knows that no rolling of her eyes is going to break any hearts. Unless she adds something to the lives of those with whom she comes in contact she will become a back number. She becomes unselfish and unvain—except in the matter of dress. Soon people forget her plainness and think only of her wholesomeness and of her

perfect grooming, and she becomes more popular with the sheiks about town than her simpering and petted sisters who hold beauty as a fetish. The time when the ugly girls looked into an old-maid future is past. It's the pretty girls who often find themselves parked on the matrimonial shelf. And as soon as these pretty girls learn that there is something more important in life than dreamy eyes or baby stare, they will get in the game again.

The successful homely girl goes in for unusual effects in dress or up-to-the minute styles instead of doll like clothes. As a doll she is the proverbial lemon, but as a live-wired fashion plate she is a peach.

There is no reason for the ugly duckling to weep into her tea in 1925 for fashions are made for her. If she follows them she will become a twelve-cylinder model and will leave beauty at the base of the hill as she high-speeds it into the hearts of the sheiks. Watch her!

RAT CAMPAIGN

Lawrence Co. waged war on rats during the week, Feb. 23 to 28. The campaign was a success in every way owing to the complete cooperation of the entire county. It was estimated that 3500 rats were destroyed. The Chamber of Commerce of Bedford offered prizes for the five best essays on rat control and in the neighborhood of 1000 essays were written on the subject. They also offered \$5.00 for the longest rat tail brought in during the week. The prize was won on a rat tail 8 5/8 inches long.

TO PROBE MILK, CREAM RATES

Interstate Commerce Commission Orders Inquiry in Indiana

Washington, April 20—An investigation into charges on milk and cream moving to and from points in the state of Indiana was ordered today by the Interstate Commerce commission.

All railroads operating within the state were made responsive to the proceedings. "The investigation," the commission said, "is instituted on the claim or motive to decide whether rates on milk and cream are reasonable or contrary with the provision of the Interstate commerce act."

Hearing will be assigned at a future date, the commission announced.

ced, and in all probability sessions will be held throughout the state.

Columbia City—Miss Helen Grayson, and Miss Elva Bridenbath, both 15, who ran away from Chicago recently equipped with \$50, a pair of dice and a supply of cigarettes, were taken back home by their mothers.

Columbus—In being initiated into the Joli Coner club, composed of young women Miss Annie Cole, a school teacher here, scrubbed the sidewalk in front of the Gause Cafe with a tooth brush, soap, and water.

Woman Afraid to Eat Anything

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (signed) Mrs. A. Howard. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines and makes you feel happy and cheerful. Excellent for obstinate constipation. Hargrove and Brown, druggists, in Milroy by Norman A. Hargrove.

Movies

"Slave of Desire," Castle
A great literary classic, from the pen of Honore de Balzac, will be seen at the Castle theatre today. It is "Slave of Desire," from Balzac's "The Magic Skin," a compelling dramatic novel inculcating the theme that one pays for what one obtains.

George Walsh, one of the most popular leading men in the movies, plays the part of Raphael Valentin, young Parisian poet and dreamer about whom the story centers.

The appealing Bessie Love has one of the best emotional roles of her career as Pauline, his sweetheart, while Carmel Myers, as the alluring Countess Fedora, has all the men of Paris literally at her feet. Some other players in the film are Wally Van Eulalie Jensen, Edward Connelly, William Orlamond, Nicholas de Ruiz and William von Harndenburg.

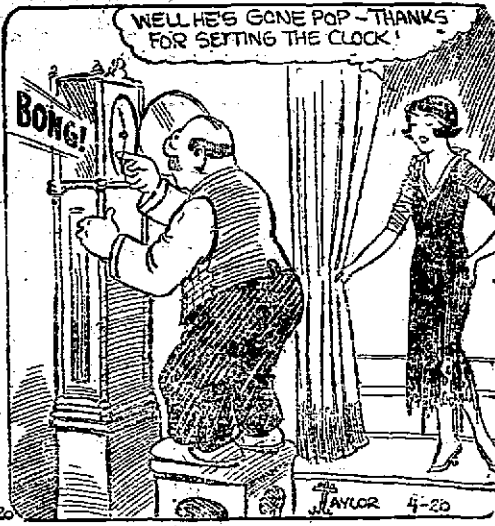

"A Broadway Butterfly"

Broadway's ever-changing aspect is always absorbing, and for that reason movie-goers will be interested in knowing that the feature attraction today and Tuesday at the Princess theatre will be "A Broadway Butterfly."

In the present instance, William Beaudine has gathered together six stellar players to enact "A Broadway Butterfly"—Louise Fazenda, Willard Louis, Dorothy Devore, John Roche, Lilyan Tashman and Callen Landis—making the cast a phenomenally meritorious one. With the picture set against authentic Broadway locations, and with real Broadway laughter and tears, the play promises to give an evening's pleasant entertainment.

"A Broadway Butterfly" is, in brief, the story of a shy little slip of a girl, who comes to Broadway to garner the laurels and glory of a stage career. To her unsophisti-

2,000 At Spring Opening of Haydon's Hardware Store

There was an estimated attendance of 2,000 at the spring opening of Haydon's hardware store Friday and Saturday, a total of 1,769 persons having actually registered during the two days. Each woman guest of the store was presented with a carnation, and 1,300 of these were given away.

Those who attended the opening were treated to demonstrations of products sold in the store and musical selections by Charles Schimmell of the E. C. Atkins Saw company, on a hand saw. While here he also appeared at the Princess theatre and won enthusiastic applause.

Representatives of manufacturers here for the opening were: Mr. Catlin of the DeLaval Separator Co.; Mr. Mege of the Perfection Paint and Color Co.; Mr. Leannard of the Peninsular Stove Co.; Mr. Campbell of the Maytag Co.; and Mr. Schimmell. Mrs. Hal Pike demonstrated the National steam pressure cooker.

LOW RECORD IN FIRES AT WARSAW

Report of State Fire Marshal For Last Year, Places Them on Bottom With Total \$255

BLOOMINGTON HAD HIGHEST

Rushville Was Close Behind Holding Down Third Place With \$23.43 Per Capita Loss

Indianapolis, Ind., April 20—Bloomington suffered the largest per capita fire loss of any Indiana city over 4,000 population in 1924 and Warsaw the smallest, Newman T. Miller, state fire marshal declared today.

According to Miller the loss in Warsaw per person was five cents while in Bloomington it reached the high figure of \$32.66.

Bloomington had 69 fires during the year with property damage which totaled \$371,776.

Only eleven fires occurred in Warsaw which destroyed only \$255 worth of property.

Indianapolis, the winner of the national fire waste contest, had a per capita loss of \$3.80 last year, Miller said. This was a decrease of 34 cents under the 1923 figure.

Forty-one Indiana cities had a fire loss of less than one dollar for each person during the year. These cities include Bicknell with a loss of 86 cents, Elkhart, 8 cents; Hartford City, 41 cents; Huntington, 69 cents; Michigan City, 93 cents; Shelbyville, 64 cents; and Washington 52 cents.

Tight other towns which had exceptionally high losses included Columbus with a loss for each person of \$10.55; Evansville, \$10.59; Penn \$15.17; Portland, \$28.83;

State Witness

Dr. Charles Krusenmark of Chicago who treated Mrs. McClintock mother of William McClintock whose death is being proved has told authorities that no mercury medicines were given to Mrs. McClintock during her fatal illness. An autopsy on the body shows traces of bichloride of mercury. The autopsy was part of an investigation being made by the state in its case against William Shepherd, accused of young McClintock's death.

Princeton, \$14.32; Rushville, \$23.43, and Valparaiso, \$11.71.

All of the estimates are based on the 1920 census which, in most cases at least would be smaller if based on the present population. This is particularly true of Michigan City where on the estimated 1924 population the loss would be only 68 cents, Miller declared.

Michigan City—A terror-stricken Notre Dame student will no longer boast of his wild parties in the east. What he supposed was the husband of one of the women in the party staged by other students for him showed up flourishing a gun.

RUSHVILLE NOT IN THE STATE

One Sixth District Winner Places First in Latin Contest

Paul Leonhard of Newcastle, winner in division three in the sixth district Latin contest, was first in the same division in the state contest, according to an announcement regarding the results of the final event from Bloomington.

Rushville high school did not have the right to enter the state contest, on account of having failed to win first place in either of the four divisions in the district event.

A Rushville contestant, Miss Mary Maude Reed, placed second in di-

vision four in the district, but only first place winners went to the state.

FINED, SENTENCED; AND THEN RELEASED

Lucid was not explained. Mayor Thomas told Lucid that he had better not appear here again, or the charge against him would stand and the penalty inflicted.

Prosecutor Ketchum stated that he wanted it understood that he was not responsible for the prisoner being permitted to go on a light fine, and Mayor Thomas replied that he would be responsible and take the blame, if there was any.

DIRECTORS WONDERING WHERE THE MONEY WENT

Report of Lew Wallace, Receiver For Hawkins Mortgage Co., Shows Only \$10,000 in Cash

OTHER ASSETS NEGLIGIBLE

Indianapolis, Ind., April 20—Investors in the Hawkins Mortgage Co., of Portland, Ind., and its affiliated loan organizations were wondering today just where their money went.

The report of Lew Wallace, receiver for the Hawkins company, showed it had only \$10,000 in cash and that other assets were practically negligible.

In promoting the sale of Hawkins stock, officials of the company represented the firm as being a flourishing concern with assets of "at least \$9,000,000," according to federal authorities.

Fourteen officials of the Hawkins company and allied organizations were convicted in federal court last fall of conspiracy to use the mails to defraud. Twelve have taken appeal from prison sentences.

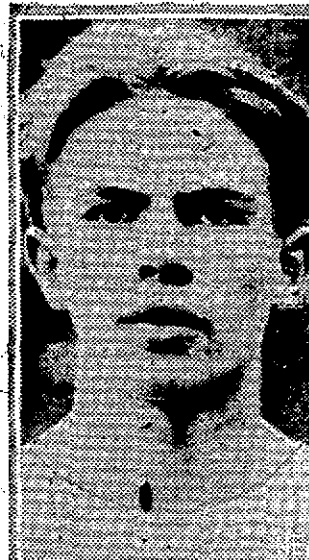

Morton Hawkins, head of the company, jumped bond before he was to go on trial on similar charges and was later rearrested in Dayton, O.

Hawkins is now fighting in federal court in Ohio to escape being returned to Indianapolis for trial.

Wabash—A nest of the oldest painted Easter eggs in the county is believed to be owned by Samuel Flora of Bolivar. The oldest egg in the nest was dyed in 1836.

Columbus—The Bartholomew Medical society has passed a resolution protesting against serving children of school age with extremely hot and cold drinks.

Typical Yank

Robert Muller's father came from Germany in 1900. His mother came from Hungary in 1907. Now Robert is known as Philadelphia's most "typical American boy" to graduate from grammar school. A medal denoting the honor was presented him by the American Legion. The honor was awarded on qualifications of honor, courage, scholarship, leadership and service.

Fort Wayne—Mrs. Ida Piatt, on trial here for medical quackery, is charged with having used prayers, incantations, and mystic "iodine crosses" in attempts to cure diseases.

Bloomington—Residents here are thanking their stars for the new Griffy Creek waterworks. The old Leonard lake is at an extremely low level and the city would be in the worst water famine in its history if the old source of supply were still in use, it is said.

Waterloo—It is believed the death of Leroy, 18-months-old baby of Mr. and Mrs. Roy Witt was caused by the child's eating of a quantity of cold tablets.

Watch Your Frail, Puny Child Grow Strong—Take on Weight

In just a few days—quicker than you ever dreamt of—these wonderful flesh making tablets called McCoy's Cod Liver Oil Compound Tablets will start to help any weak, thin, under-nourished little one.

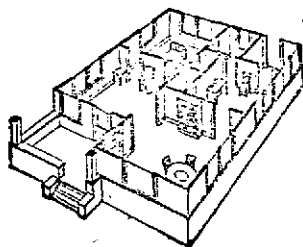

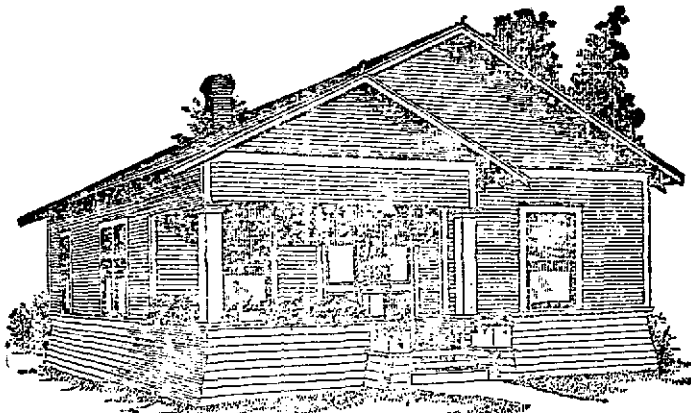

After sickness and where rickets are suspected they are especially valuable. No need to give them any more nasty Cod Liver Oil—these tablets are made to take the place of that good but evil smelling, stomach upsetting medicine and they surely do it. They do put on flesh.

Ask F. B. Johnson & Co. or Pittman & Wilsons, or any druggist for McCoy's Cod Liver Oil Compound Tablets—as easy to take as candy and not at all expensive—60 tablets 60 cents.

Be sure and get McCoy's, the original and genuine and give the child a chance for 30 days. If you aren't delighted with results just get your money back.

Will Build These Five Rooms and Bath. It Includes Gas, Electricity, Water and Bath Room Fixtures

You can build a mansion or a bungalow and put as much money as you want to in either. For the past many years Rushville people have put all the money they could possibly get hold of into houses they have built, because they were building to live in themselves. BUT NOW YOU MUST BUILD FOR SOMEONE ELSE, AND WE WILL SHOW YOU IT WILL BE THE BEST PAYING INVESTMENT EITHER TO BUILD TO SELL OR RENT. WE can show you that a livable house can be built for as low as \$1200.
